

## Resources

---

Resources Agency programs protect and restore California's diverse, abundant natural and cultural resources for current and future generations, including 278 state parks, stunning coastlines and lakes, spectacular forests, vast fish and wildlife habitats, rich farmlands and mineral resources. Agency programs also protect the public through suppression of wildfires, construction of levees in the Central Valley, and permitting environmentally safe energy power plants. These programs not only contribute to the state's unique quality of life, but also are critical to sustaining a vibrant economy.

### 3110 Special Resources Programs

The Special Resources Programs include the Tahoe Regional Planning Agency, the Yosemite Foundation Program, and the Sea Grant Program.

#### PROGRAM DESCRIPTIONS (Program Objectives Statement)

##### 10 - TAHOE REGIONAL PLANNING AGENCY

A congressionally approved compact between California and Nevada established the Tahoe Regional Planning Agency. The Agency coordinates planning and regulations that preserve and enhance the environment and resources of the Lake Tahoe Basin. Funding for the Agency is shared between Nevada (one-third) and California (two-thirds).

##### 20 - YOSEMITE FOUNDATION PROGRAM

This program receives revenue from the sale of personalized motor vehicle license plates by the Department of Motor Vehicles. The funds are allocated by the State Controller for restoration and preservation projects in Yosemite National Park.

##### 30 - SEA GRANT PROGRAM

The Sea Grant Program encourages research and education in the fields of marine resources and technology. This

\* Dollars in thousands, except in Salary Range.

### 3110 Special Resources Programs - Continued

program provides funding to the University of California and University of Southern California to match federal funds for selected projects under the federal Sea Grant Program.

### 3125 California Tahoe Conservancy

The California Tahoe Conservancy's mission is to protect and sustain the unique natural resources and recreational opportunities in the Lake Tahoe Basin. The Conservancy achieves its mission by developing and implementing programs that acquire environmentally sensitive land, provide grants or directly fund soil erosion prevention and watershed restoration, improve stream environments and wildlife habitats, and improve water quality. The Conservancy also balances these activities with programs to improve public access and recreational opportunities in an environmentally sound manner by acquiring lakefront property, constructing pedestrian and bike paths, and building public access facilities.

The Conservancy is also a key component of the Environmental Improvement Program (EIP) which is a 1997 agreement between California, Nevada, the Tahoe Regional Planning Agency, the federal government, local governments, and various private entities to commit \$908 million over 10 years to a list of acquisition and capital improvement projects needed to achieve environmental goals in the Basin. The EIP is updated periodically to include more refined estimates of projects, modifications in the scope of identified projects, and inclusion of new projects. It is anticipated that a draft of the new EIP will be out by February of 2008 and will be adopted as part of the Tahoe Regional Plan package in early 2009.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Tahoe Conservancy's Capital Outlay Program, see "Infrastructure Overview."

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 10 - TAHOE CONSERVANCY

The California Tahoe Conservancy performs day-to-day management and maintenance of the lands it has acquired, as well as the completion of corrective and restorative actions needed to fully achieve the purposes of the acquisitions. It is envisioned that the Conservancy ultimately will acquire up to 6,000 environmentally sensitive parcels under existing criteria. To date over 4,600 parcels, totaling nearly 6,400 acres, have been acquired. These parcels are being managed to maintain and/or restore their natural functions, provide for public safety, and provide for open spaces.

The Conservancy has also acquired additional parcels where more extensive site improvements or more active ultimate uses are envisioned. For example, the management objectives for the public access and recreation lands are to allow for suitable and appropriate interim uses during the site improvement planning and implementation process, design and construct public access facilities and arrange for long-term management.

\* Dollars in thousands, except in Salary Range.

## 3125 California Tahoe Conservancy - Continued

In addition, high rates of tree mortality (25 percent-40 percent) throughout the Basin have required special emphasis on forest resource management activities to reduce fuel hazards, remove hazardous conditions, start corrective actions to manage forest health through a variety of means, and limit public liability. Activities include the removal of diseased, dead and dying trees to promote forest health while reducing the risk of fire that would destroy property and habitat, threaten lives, and diminish the water quality and other resource values of Lake Tahoe.

The program also provides grants to local governments to improve the Lake's water quality by controlling soil erosion caused by existing development, primarily along roadways, and to treat sediment-laden runoff. These projects involve acquisitions and site improvements such as the revegetation of barren slopes, and building roadside and storm drainage facilities and sediment basins.

### 50 - ACQUISITION AND SITE IMPROVEMENT PROJECTS

This program acquires environmentally sensitive lands and provides public access and recreation by enhancing existing facilities and establishing new public access sites along the Lake and in natural areas. The program also preserves a wide variety of habitats supporting endangered, threatened or rare animal and plant species, and restores streams and watersheds such as marshes, meadows and riparian areas to mitigate development damage and enhance water quality.

### INFRASTRUCTURE OVERVIEW

The Conservancy manages programs to help protect Lake Tahoe's water quality and conserve wildlife habitat, watershed areas, and public access on the California side of the Lake Tahoe Basin. The Conservancy is a primary implementer of the State of California's responsibilities under the Environmental Improvement Program (EIP) for the Lake Tahoe Basin - a 1997 agreement between California, Nevada, the Tahoe Regional Planning Agency, the federal government, local governments, and various private entities. The EIP is updated periodically to include more refined estimates of projects, modifications in the scope of identified projects, and inclusion of new projects. It is anticipated that a draft of the new EIP will be out by February of 2008 and will be adopted as part of the Tahoe Regional Plan package in early 2009.

### MAJOR PROJECT CHANGES

- Environmental Improvement Program (EIP): The Budget includes \$8.2 million from various funds for capital outlay or local assistance projects to continue the state's efforts to support the EIP for the Lake Tahoe Basin.

## 3210 Environmental Protection Program

The California Environmental Protection Program receives revenue from the sale of personalized motor vehicle license plates by the Department of Motor Vehicles. Revenues are deposited in the California Environmental License Plate Fund. Funds expended pursuant to Division 13.5 of the Public Resources Code must have one or more of the following purposes:

- The control and abatement of air pollution, including all phases of research into the sources, dynamics and effects of environmental pollutants.
- The acquisition, preservation, restoration, or any combination thereof, of natural areas or ecological reserves.
- Environmental education, including formal school programs and informal public education programs.
- Protection of nongame species and threatened and endangered plants and animals.
- Protection, enhancement, and restoration of fish and wildlife habitat and related water quality, including review of the potential impact of development activities and land use changes on that habitat.
- The purchase, on an opportunity basis, of real property consisting of sensitive natural areas for the state park system and for local and regional parks.
- Reduction or minimization of the effects of soil erosion and the discharge of sediment into the waters of the Lake Tahoe region, including the restoration of disturbed wetlands and stream environment zones.

The appropriations and expenditures for programs and projects funded from the California Environmental License Plate Fund are contained in the budgets of the various state boards, commissions and departments.

### 3340 California Conservation Corps

The California Conservation Corps (CCC) is a workforce development program that offers young men and women the chance to serve their state and become employable citizens through life skills training and hard work in environmental conservation, fire protection, and emergency services.

The CCC hires young men and women to assist governmental and nongovernmental organizations in conserving, protecting, and restoring natural resources while providing corpsmembers with on-the-job training and educational opportunities.

The CCC is an important part of the state's emergency response and homeland security network. It dispatches crews within hours to respond to fires, floods, earthquakes, oil spills, agricultural pest infestations, and security threats.

The annualized corpsmember population for 2008-09 is anticipated to be 1,510 of which 200 corpsmembers are supervised by local nonprofit conservation corps. The CCC will also maintain 7 residential and 18 nonresidential facilities throughout the state.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the CCC's Capital Outlay Program, see "Infrastructure Overview."

### LEGAL CITATIONS AND AUTHORITY

#### DEPARTMENT AUTHORITY

Public Resources Code Section 14000.

### MAJOR PROGRAM CHANGES

- Proposition 84: Grants to Local Corps and Watershed Restoration Projects - The Budget includes \$33.3 million Proposition 84 to provide \$12.5 million in grants to local conservation corps and \$3 million to the State Corps for projects to improve public safety and improve and restore watersheds, and \$20 million in grant funding to support local conservation corps programs and local resource conservation activities.

### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$1.2 million in 2007-08 and \$3.8 million and 5.7 positions in 2008-09.

The major budget balancing reductions include:

- 2007-08

Reduce \$1.2 million from the Training and Work Program.

- 2008-09

Reduce \$3.8 million and 5.7 positions from the Training and Work Program. This reduction will eliminate 75 of the 1,310 existing corpsmember slots.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 10 - TRAINING AND WORK PROGRAM

This program focuses on four areas:

- Natural Resource Work: Corpsmembers protect and enhance the state's natural resources through landscaping, park development, trail construction, tree-planting, fire hazard reduction, energy auditing and retrofitting, irrigation system

\* Dollars in thousands, except in Salary Range.

### 3340 California Conservation Corps - Continued

installation, watershed improvement, wildlife habitat enhancement, removal of nonnative vegetation, fence construction, and meadow restoration.

- **Emergency Response:** Corpsmembers are dispatched to fires, assisting with initial attack, mop-up and logistical support; floods, filling sandbags, reinforcing levees and stabilizing hillsides; earthquakes, removing hazards and staffing disaster assistance centers; oil spill clean up; snow removal; search-and-rescues; pest infestation eradication; and homeland security assistance.
- **Corpsmember Education:** Corpsmembers are provided opportunities to advance their academic skills while in the CCC through local adult and charter schools, and community colleges.
- **Corpsmember Development and Training:** The CCC stresses both a work and service ethic, which includes teamwork, self-discipline, leadership, and giving back to California. Corpsmembers learn conservation principles and career planning. The CCC also offers training in landscaping, first aid, and firefighting certification, which can lead to internship opportunities with various employers in California.

#### INFRASTRUCTURE OVERVIEW

The California Conservation Corps operates 27 facilities statewide. The CCC operates 7 residential facilities and 18 non-residential satellite centers in urban and rural areas. These facilities help the CCC achieve its mission of providing employment, training, and educational opportunities to young men and women, and assisting federal, state and local agencies and nonprofit entities with the conservation of California's natural resources.

### 3360 Energy Resources Conservation and Development Commission

The Energy Resources Conservation and Development Commission (Energy Commission) is responsible for ensuring a reliable supply of energy to meet the state's needs, while protecting public health, safety and the environment. Activities include permitting energy facilities, assessing current and future energy demands and resources, developing energy efficiency standards and implementing programs to reduce wasteful and inefficient use of energy, stimulating development of alternative sources of energy such as wind, solar and biomass, and non-petroleum transportation fuels, analyzing transportation fuel supplies, prices and trends, and maintaining capabilities to respond to energy emergencies.

Expenditures for the State Energy Conservation Assistance Account (Fund 0033) include loan repayments of \$3,343,000 in 2006-07, \$2,600,000 in 2007-08, and \$2,725,000 in 2008-09. Expenditures for the Energy Technologies Research, Development and Demonstration Account (Fund 0479) include repayments of \$34,000 in 2006-07, \$2,000 in 2007-08, and \$1,000 in 2008-09.

## 3360 Energy Resources Conservation and Development Commission - Continued

### LEGAL CITATIONS AND AUTHORITY

#### DEPARTMENT AUTHORITY

Public Resources Code, Division 15, commencing with Section 25000 (Warren-Alquist Act).

#### PROGRAM AUTHORITY

10-Regulatory And Planning Program:

Public Resources Code, Division 15, Chapters 4, 4.5, 5, 5.9, 6, 6.5, 7, 7.1, 8, 8.2, 8.3, 8.5, 10.5, 10.8, 11, and 12.

20-Energy Resources Conservation Program:

Public Resources Code, Division 15, Chapters 5, 5.2, 5.3, 5.4, 5.9, 7, 7.5, 8.3, 10.5, 10.8, and 11.

30-Development Program:

Public Resources Code, Division 3, Chapter 6, and Division 15, Chapters 6, 6.5, 7, 7.1, 7.2, 7.3, 7.4, 7.5, 7.7, 7.8, 7.9, and Public Utilities Code, Division 1, Articles 15 and 16.

40-Policy, Management, and Administration Program:

Public Resources Code, Division 15, Chapters 1, 2, 3, 9, and 10.

### MAJOR PROGRAM CHANGES

- Alternative and Renewable Fuel and Vehicle Technology Program - The Governor's Budget includes \$100.9 million Alternative and Renewable Fuel and Vehicle Technology Fund and 5.7 positions for the California Energy Commission to prepare guidelines and provide grants, loans, and other appropriate measures to public agencies, public-private partnerships, and other entities to develop alternative fuels and related technologies, including electricity, ethanol, renewable diesel, natural gas, hydrogen, and biomethane, among others. The development of these fuels and technologies will help reduce California's dependence on petroleum-based fuels.

#### PROGRAM DESCRIPTIONS (Program Objectives Statement)

##### 10 - REGULATORY AND PLANNING PROGRAM

The Regulatory and Planning program facilitates markets in providing adequate statewide energy supplies. The program develops long-range projections of future energy supply and demand; maintains current information on statewide electrical generation, transmission, natural gas, and fuels markets; certifies and monitors new energy facilities and fuel infrastructure for supply and distribution adequacy consistent with state energy policies; develops state energy policy based on the economic, financial, security, safety, and environmental implications of supply, demand, and price assessments; and monitors energy markets to ensure competitive prices and to prevent potential market abuses.

##### 10.10 - Power Plant Siting and Certification:

This program reviews power plant siting applications, ensures that power plant developers comply with conditions of certification and all applicable laws and regulations during the construction and operation of power plants, and analyzes the reliability, efficiency, and environmental performance issues related to power plants and the state's electricity transmission grid.

##### 10.20 - Electricity Resource Planning:

This program evaluates current and future electricity supply market trends and infrastructure needs, assesses the adequacy of electricity supplies, analyzes regulations and environmental issues related to electricity, and provides information and recommendations to state agencies, electricity market participants, and the public. The Natural Gas component evaluates current and future natural gas market trends and infrastructure needs; assesses the adequacy of natural gas supplies; analyzes regulations and environmental issues related to natural gas; and leads interagency working groups to monitor short-term natural gas market trends.

##### 20 - ENERGY RESOURCES CONSERVATION PROGRAM

The Energy Resources Conservation program works to reduce overall energy use and decrease peak electricity demand by tracking current energy demands and trends, assessing future demand needs, identifying energy efficiency opportunities, and developing and implementing marketing programs and standards for the use of energy in agriculture and food processing, manufacturing, water systems, moving water or wastewater, and other processing functions

##### 20.10 - Buildings:

This program works to reduce consumer energy bills and peak demands by developing and implementing strategies and minimum efficiency standards for new and existing residential and nonresidential buildings, appliances, and equipment; provides building standards technical assistance to the building industry; and maintains a database of energy efficiency appliances and equipment.

##### 20.30 - Energy Projects Evaluation and Assistance:

This program provides technical assistance, grants, and loans to improve energy efficiency and reduce operating costs of schools, hospitals, local governments, water and water treatment facilities, agricultural facilities, industry and multi-family housing.

##### 20.40 - Demand Side Program Evaluation:

This program collects and analyzes electricity and natural gas consumption data used to prepare energy demand forecasts, forecasts peak and total energy consumption by sector, and estimates the amount of energy conserved by existing and proposed program activities.

##### 30 - DEVELOPMENT PROGRAM

The Development Program conducts research, development, demonstration, and commercialization activities on energy efficiency, renewable and advanced energy technologies and transportation technologies to ensure that future energy supplies are cost effective, secure and reliable, enhance environmental quality, and promote state and local economic development. The program provides technical assistance, financial assistance, direct technology research and demonstration, technology forecasting, technology analysis and evaluation, and information transfer. The program also helps energy technology companies export their technologies, products, and services to international markets and helps California companies develop international energy projects.

\* Dollars in thousands, except in Salary Range.

### 3360 Energy Resources Conservation and Development Commission - Continued

#### 30.20 - Transportation Technology and Fuels:

This program ensures that adequate and reliable transportation energy is available, while balancing economic, public health, safety and environmental concerns. The program also provides analyses and options used to guide state policy and legislation to reduce petroleum consumption, and promote development of new transportation technologies and fuels that provide energy, economic, and environmental benefits to California motorists. In addition, the program provides financial incentives for the purchase of alternative fueled vehicles and buses, funding of advanced technology demonstration programs, and cost-sharing of construction of necessary supporting alternative fuel infrastructure so advanced and efficient technologies can enter the marketplace sooner. The program monitors, analyzes and reports on transportation fuel supply and production, vehicle population mixes, and transportation demand issues and trends, and maintains the California Energy Shortage Contingency Plan to respond to energy shortages and emergencies.

This program area also identifies ways in which California can help mitigate global climate change, analyzes the potential effects of greenhouse gas (GHG) emissions on California's environment and major sectors of the economy, proposes policy recommendation strategies to reduce GHG emissions, maintains the state's inventory of GHG emissions, provides technical guidance to the California Climate Action Registry (a voluntary registry that provides a means for individual entities to establish their GHG emission inventory), and participates in a joint agency climate team to develop a unified policy framework for state initiatives to maximize mitigation of and adaptation to climate change impacts.

California energy technology companies receive assistance exporting their technologies, products, and services to international markets, focusing on developing nations in Asia and Latin America. The program supports the Governor's Border Energy commitments, and helps offset the disadvantages encountered by California firms when competing with European and Japanese companies heavily supported by their governments, by identifying export opportunities, evaluating and facilitating the development of specific projects, increasing foreign buyer awareness of California's energy industry, and distributing information through conferences, publications and websites to California firms and potential foreign buyers.

Discusses, assesses, and recommends state actions to facilitate potential Liquefied Natural Gas (LNG) siting applications; considers LNG penetration in the state's natural gas market; and provides information and recommendations to the administration, state agencies, natural gas market participants, and the public.

#### 30.30 - Research and Development:

This program supports energy research and development projects not adequately addressed by competitive and regulated markets. The objective is to advance energy science and technology and deploy environmentally safe, reliable, and affordable energy services and products to Californians.

#### 30.40 - Technology Evaluation:

This program area fosters the growth of the renewable energy market by providing production-based incentives and rebates to purchasers of renewable products, tracking and verifying renewable energy transactions, and educating the public about renewable energy.

#### 99 - LOAN REPAYMENT PROGRAM

This program consists of Conservation and Development program loan repayments, which are deposited in the following accounts: State Energy Conservation Assistance Account; Local Jurisdiction Energy Assistance Account; Energy Technologies Research, Development and Demonstration Account; and Local Government Geothermal Resources Revolving Subaccount.

### 3370 Renewable Resources Investment Program

The Renewable Resources Investment Program receives 30 percent of the royalties deposited in the Geothermal Resources Development Account. The state receives these monies from the federal government for geothermal leases. Funds from the Bosco-Keene Renewable Resources Investment Fund may be expended only for the following: fish habitat improvements; forest resource improvements; urban forestry projects; agricultural soil drainage and soil erosion programs; agricultural, industrial and urban water conservation; wildland fire protection; and coastal resource enhancement projects. Specific project and program expenditures for the Renewable Resources Investment Program are included in the budgets of various departments.

## 3460 Colorado River Board of California

The Colorado River Board protects California's rights and interests in the water and power resources of the Colorado River system. The Board works with: Colorado River Basin states (Arizona, California, Colorado, Nevada, New Mexico, Utah, and Wyoming), federal agencies, other state agencies, six local agencies (Palo Verde Irrigation District, Imperial Irrigation District, Coachella Valley Water District, Southern California Metropolitan Water District, San Diego County Water Authority, Los Angeles Department of Water and Power), Congress, and the courts. Activities include analyses of engineering, legal and economic matters concerning the Colorado River resources of the seven basin states and the 1944 United States-Mexico Water Treaty obligation to deliver Colorado River water to Mexico.

### 3480 Department of Conservation

The Department of Conservation administers programs to preserve agricultural and open space lands, promote beverage container recycling, evaluate geology and seismology, and regulate mineral, oil, and gas development activities.

#### 3-YR EXPENDITURES AND POSITIONS (Summary of Program Requirements)

10 - Geologic Hazards and Mineral Resources Conservation:

Public Resources Code, Division 1, Chapter 2, Articles 1 and 2; Public Resources Code, Division 2, Chapters 1, 2, 7.5, 7.6, 7.8, 8, 9, 10.; California Code of Regulations, Title 14, Division 2, Article 2, Article 3, Article 10.

20-Oil, Gas, and Geothermal Resources:

\* Dollars in thousands, except in Salary Range.

## 3480 Department of Conservation - Continued

Public Resources Code, Division 3.

30-Land Resource Protection:

Public Resources Code, Division 9 (Soil Resource Protection Program); Public Resources Code, Division 10.2 (California Farmland Conservancy Program); Public Resources Code Section 612, Government Code Section 65570 (b)-(e) (Farmland Mapping and Monitoring Program); Government Code Section 65570 (Williamson Act); and Government Code Section 16140 et seq. (Open Space Subvention Act).

50-Beverage Container Recycling and Litter Reduction:

Public Resources Code, Division 12.1.

60 - Mine Reclamation:

Public Resources Code, Division 2, Chapters 2 and 9; Public Contract Code, Division 2, Part 2, Chapter 2, Article 2, and Part 3, Chapter 1, Article 42; California Code of Regulations, Title 14, Division 2, Chapter 8, Subchapter 1.

### MAJOR PROGRAM CHANGES

- Proposition 84: Farmland Conservancy Program - The Budget includes \$5.2 million Proposition 84 for the Farmland Conservancy Program to preserve agricultural land resources.
- Proposition 84: Watershed Grant Coordinator Program - The Budget includes \$2.1 million Proposition 84 which will provide statewide grants for the Watershed Grant Coordinator Program.
- Education and the Environment Initiative - The Budget includes \$1.2 million California Beverage Container Recycling Fund for transfer to the California Integrated Waste Management Board to develop the recycling portion of the curriculum for kindergarten through 12th grade students.

### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$512,000 and 6.2 positions in 2008-09.

The major budget balancing reductions include:

- 2008-09

Reduce \$512,000 and 6.2 positions from the Geologic Hazards and Mineral Resources Conservation Program. This reduction will decrease resources available for geologic analysis of carbon sequestration, the review of timber harvest plans, and the development of geologic and seismic hazards maps.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 10 - GEOLOGIC HAZARDS AND MINERAL RESOURCES CONSERVATION

This program evaluates, assesses and maps the State's geologic and seismologic hazards, such as earthquakes, landslides, tsunami and volcanic eruption threats, and hazardous minerals exposures, in order to protect the public health and safety and the natural environment; analyzes the State's mineral assets and maps its mineral resources. Information is used by Federal, State, and local government agencies, industries and individual businesses, and the public to make informed decisions about land use, seismic safety, and mineral development.

#### 20 - OIL, GAS, AND GEOTHERMAL RESOURCES

This program regulates the drilling, operation, and abandonment of oil, natural gas, and geothermal wells to protect the environment, prevent pollution, and ensure public safety. The state is fully reimbursed for program expenditures by annual assessments and fees on the respective industries. Approximately 500 companies operate over 88,000 wells in California for the production of oil, natural gas, and geothermal resources.

#### 30 - LAND RESOURCE PROTECTION

This program protects agricultural farmland and open space through various financial incentives. Under the Williamson Act, landowners who agree to keep their property undeveloped for at least ten years receive lower property tax assessments. The California Farmland Conservancy Program provides grants to local governments and nonprofit land trusts for the acquisition of agricultural conservation easements that permanently remove development rights, and therefore development pressure, from agricultural lands. The Farmland Mapping Program of the Land Resource Protection program develops maps, statistics, and reports relating to farmland conversion, farmland inventory and land protection to assist in local land use decisions.

#### 50 - BEVERAGE CONTAINER RECYCLING AND LITTER REDUCTION

This program administers the California Beverage Container Recycling and Litter Reduction Act to achieve an 80 percent recycling rate for glass, aluminum and plastic beverage containers sold in California. To achieve this goal, the Division of Recycling ensures that: (1) the California Redemption Value (CRV) is paid by beverage distributors for each beverage sold in California; (2) consumers are refunded CRV for recycled beverage containers; (3) recycling centers are conveniently located; (4) grants are made to encourage recycling and development of markets for recycled materials; (5) strong oversight and enforcement programs are in place so that the integrity of the Beverage Container Recycling Fund remains stable and free of fraud; and (6) public outreach and private partnerships are promoted.

#### 60 - MINE RECLAMATION

This program regulates active surface mining operations and monitors local lead agencies to ensure compliance with the Surface Mining and Reclamation Act of 1975. It assists cities, counties, state agencies, and mine operators in their efforts to reclaim mined lands to beneficial uses. This program also compiles an inventory of the state's estimated 47,000 abandoned mines and remediates abandoned mine hazards to protect public safety.

\* Dollars in thousands, except in Salary Range.

### 3540 Department of Forestry and Fire Protection

The California Department of Forestry and Fire Protection protects the people of California from fires, responds to emergencies as part of the California Emergency Plan and protects and enhances forest, range and watershed values. The Department provides fire protection services for some local governments on a cost reimbursement basis and protects lives and property through the development and application of fire prevention engineering, enforcement and education. The Department's objectives are to protect lives, property and natural resources; contain costs and losses due to wildfire through improved prevention of damaging fires and initial attack fire suppression; streamline operational and regulatory functions regarding forest practices and vegetation management practices on wildlands; and optimize services provided through partnerships and cooperative agreements with all levels of government and private sector.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Department of Forestry and Fire Protection's Capital Outlay Program, see "Infrastructure Overview."

### LEGAL CITATIONS AND AUTHORITY

#### DEPARTMENT AUTHORITY

Public Resources Code Division 1, Chapter 2.5, Articles 1 and 2.

#### PROGRAM AUTHORITY

10-State Fire Marshal:

Health and Safety Code Division 12, Part 2, Chapters 1 through 7; Government Code Title 5, Division 1, Part 1, Chapter 5.5.

11-Fire Protection:

Public Resources Code Division 4, Part 2, Chapters 1 through 7.

12-Resource Management:

Public Resources Code Division 4, Part 2, Chapters 8 through 12, Part 2.5, Chapters 1 through 4.

### MAJOR PROGRAM CHANGES

- Wildland Firefighting Initiative - The Budget includes \$33.1 million Insurance Fund to provide four member crews on fire engines during peak and transition fire periods (\$28.9 million, 383.8 positions), replace Cal Fire's aging helicopter fleet with 11 new, all-weather helicopters (\$26 million/year beginning in 2009-10), and install GPS tracking units on engines and aircraft (\$4.2 million, 3.8 positions).
- Civil Cost Recovery Unit - The Budget includes \$2.5 million General Fund and 13.1 positions to establish a unit to recover the state's costs to suppress fires caused by violation of the law or negligence.
- Proposition 84: Urban Greening/Forestry - The Budget includes \$9.8 million from Proposition 84 funds and 12.1 positions to fund urban greening projects as a strategy to meet the greenhouse gas emission reduction goals (\$4.4 million), and to continue an urban forestry grant program (\$5.4 million).

### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$52.7 million and 66.5 positions in 2008-09.
- The following programs totaling \$88.7 million General Fund have been exempted from the budget balancing reductions:

Scheduled expenditures of \$82.4 million for emergency fire suppression costs.

Scheduled expenditures of \$6.3 million for lease revenue payments.

The major budget balancing reductions include:

- 2008-09

Reduce \$315,000 and 1.9 positions from the Office of the State Fire Marshal. This reduction will reduce funding for direct administration of the Office of the State Fire Marshal and code development and analysis.

Reduce \$44.7 million and 361 positions from the Fire Protection Program. This reduction will be implemented by shifting funding for 20 one-engine fire stations and the contract county equivalent, 11 conservation camps, and 1 helitack base from the General Fund to the Insurance Fund, and will be supported by a surcharge on commercial and residential property insurance policies.

Reduce \$3 million and 20.9 positions from the Resources Management Program. This reduction will reduce funding for vegetation management, timber harvest plans, nurseries, and other resource management programs.

Reduce \$4.8 million and 43.7 positions from Administration. This reduction will reduce funding for accounting, contracts,

\* Dollars in thousands, except in Salary Range.

## 3540 Department of Forestry and Fire Protection - Continued

human resources, and information technology functions.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 10 - STATE FIRE MARSHAL

The State Fire Marshal is responsible for the statewide protection of life and property through the development and application of fire protection engineering, education and enforcement. Activities include the following:

- **Code Development and Analysis:** Objectives include the development and adoption of codes relating to fire/life safety used statewide by local fire authorities. The program also operates the California All-Incident Reporting System (CAIRS), which collects and analyzes incident response data provided by local fire departments.
- **Fire and Life Safety:** Objectives include the enforcement of fire/life safety standards in state-owned and state-occupied facilities, institutions, jails and areas not covered by a local fire department. The program also assists local fire authorities in the interpretation and enforcement of fire/life safety regulations within their respective jurisdictions.

\* Dollars in thousands, except in Salary Range.

## 3540 Department of Forestry and Fire Protection - Continued

- **Fire Engineering:** This program uses a multi-pronged approach toward reducing or eliminating fire risks/hazards and changing the fire environment. Consumer services and product evaluations are conducted on portable fire extinguishers, fire sprinkler/extinguishing systems, dangerous and consumer fireworks, flame retardant fabrics/chemicals, vapor recovery devices and building materials listing services. Other activities include coordination of hazardous materials and California Unified Program Account services to local fire officials as well as a liaison role for fire/life safety standards between the fire service and the film/entertainment industry.
- **Pipeline Safety:** This program regulates approximately 6,400 miles of critical pipelines that transport crude oil and refined products (e.g., gasoline, diesel, jet fuel, etc.). Regulated pipelines do not include those within production fields, marine terminals, refineries or bulk loading facilities. The program has been designated as a federal agent for the enforcement of pipeline safety standards for interstate pipelines since 1987.
- **State Fire Training:** The program provides a comprehensive training and certification service to local fire agencies. Activities include the California Fire Service Training and Education System and Fire Service Training and Education Program.

### 11 - FIRE PROTECTION

The Department provides for a system of basic fire protection to keep damages to life, property and natural resources at or below a level acceptable within social, political and economic constraints. The objective is to quickly and aggressively attack all fires in areas where the Department has assumed primary direct protection responsibility by virtue of law, contract or mutual understanding and to continue aggressive suppression operations until the fire is under control. The level of initial attack and follow-up action is relative to values threatened and control difficulty with the intent to control all unwanted fires within the first burning period.

#### 11.10 - Fire Prevention:

This program focuses on the most effective methods, materials and procedures to remove or mitigate physical risks and hazards and to enforce pertinent laws for the reduction of fire incidents. More specifically, efforts focus on what needs to be done before a wildland fire starts in order to reduce the costs of fire fighting, property loss, injury to fire fighters and damage to the environment.

#### 11.30 - Fire Control:

The objective of this program is to detect, respond and suppress wildland fires in or threatening State Responsibility Areas. The heart of the effort is an aggressive initial attack strategy. The Department's goal is to contain 95 percent of all wildfires to 10 acres or less. This is achieved through detection, ground attack, air attack and mutual aid using fire engines, fire crews, bulldozers, helicopters and fixed wing aircraft.

#### 11.40 - Cooperative Fire Protection:

The Department provides a full range of fire protection to local, county, state and federal agencies throughout California through the administration of 146 cooperative agreements in 35 of the state's 58 counties, 25 cities, 31 fire districts and 34 other special districts and service areas. Additionally, there are agreements with six counties that provide wildland fire protection on behalf of the Department.

#### 11.60 - Conservation Camps:

The Department, in cooperation with the Department of Corrections and Rehabilitation, Divisions of Adult Operations and Juvenile Justice, operates 39 conservation camps throughout the state which house 196 fire crews. These crews provide one of the primary labor forces for firefighting, emergency responses, and conservation related work projects.

#### 11.80 - Emergency Fire Suppression:

The Department incurs additional emergency fire suppression expenditures when budgeted initial attack forces are unable to cope with a wildland fire within the initial attack period, when extreme fire conditions exist and when mutual aid requests from other government authorities are fulfilled.

### 12 - RESOURCE MANAGEMENT

California's state and private forest, range, watershed lands and urban forests provide multiple human and environmental benefits. The objective of this program is to maintain and enhance those benefits and to minimize damage to these resources from natural catastrophes and human development. Objectives are met by regulation of timber harvesting, technical assistance to non-industrial landowners, operation of state demonstration forests, operation of forest nurseries, vegetation management projects and administration of federal forestry assistance programs.

#### 12.10 - Resources Protection and Improvement:

The objective of this program is to improve forest lands. Activities include the detection, evaluation and control of forest pests; growing and sale of tree seedlings from two nurseries for reforestation and soil erosion control; genetic tree improvement; advice and assistance to non-industrial forest landowners on management of forests and improved harvesting practices; the demonstration of sustainable forestry in state forests; implementation of the California Forest Improvement Act of 1978; and demonstration of the use of wood waste and forest growth for increased use of forest products. In the area of vegetation management, assistance is provided to the public and to private landowners to achieve land use objectives by reducing damage from wildland fires, increasing wildlife habitat, increasing productivity of forest and rangelands, improving water yields and air quality and maintaining desirable ecosystems. The Department cooperates with federal, state and local agencies and private property owners to develop and achieve land use objectives. Activities include the removal, rearrangement, conversion or improvement of vegetation using various treatment measures such as prescribed fire and mechanical, manual, biological and chemical methods.

#### 12.30 - Forest Practice Regulations:

The objective of this program is to maximize sustained production of high-quality timber while protecting soil, water, wildlife, recreation and other values associated with forest land. Activities include regulating timber harvesting operations on

## 3540 Department of Forestry and Fire Protection - Continued

nonfederal timberlands, carrying out studies of causes and effects of soil erosion, issuing licenses to timber operators and assisting taxing agencies in their administration of taxes on timber and timberland.

### 12.40 - Forest Resource Inventory and Assessment:

This program provides information to assist in the formulation and analysis of resource policies and practices regarding fire protection, watershed protection and resource management. Activities include assessing forest and range land conditions; developing and maintaining the data and tools used in the California Fire Plan; identifying policy options for improving conditions across all wildland resources; publishing forest and range assessments; designing and conducting inventories to gather forest and range land data; developing a data storage, retrieval and analytical system; producing maps displaying soil and vegetation types; and providing comment on the U.S. Forest Service Resources Planning Act, National Forest Management Act and Soil Conservation Service Resource Conservation Act processes.

### 12.60 - CalFED Distributed Administration:

The Budget Act of 2006 transferred the administrative function for the CALFED Bay-Delta Program to the Department of Forestry and Fire Protection. This program continues to provide administrative services for the CALFED Bay-Delta Program, which is under the Resources Agency.

## 20 - ADMINISTRATION

The objective of this program is to provide executive leadership, policy direction and administrative services required for the successful completion of the Department's objectives. Department headquarters provides leadership through the executive office and through central services in accounting, budgeting, business services, human resources, information technology, program accountability and program and systems analysis. Department field units provide localized general support services in a variety of locations throughout in the state.

### INFRASTRUCTURE OVERVIEW

The Department of Forestry and Fire Protection operates over 500 facilities statewide, including 228 forest fire stations, 112 telecommunications sites, 39 conservation camps, 21 unit headquarters, 16 administrative headquarters, 13 air attack bases, 9 helitack bases, 8 state forests, 2 nurseries, a training academy and various other miscellaneous facilities. These facilities provide fire protection and resource management for over 31 million acres of state and privately owned wildlands throughout the state.

### MAJOR PROJECT CHANGES

- The Governor's Budget proposes \$90.8 million lease-revenue bonds for six new projects. These projects include the replacement of two unit headquarters, two forest fire stations, a helitack base, and the relocation of an autoshop.

## 3560 State Lands Commission

The State Lands Commission manages and protects all statutory lands which the state received from the federal government upon its entry into the Union. These lands include the beds of all naturally navigable waterways such as major rivers, streams and lakes, tide and submerged lands in the Pacific Ocean which extend from the mean high tide line seaward to the three-mile limit, swamp and overflow lands, state school lands, and granted lands. These lands total more than four million acres. The Commission authorizes the use of public lands based upon environmental, health and safety, and public benefit considerations. The three-member commission consists of the Lieutenant Governor, the State Controller, and the Director of Finance.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the State Lands Commission's Capital Outlay Program, see "Infrastructure Overview."

### LEGAL CITATIONS AND AUTHORITY

#### DEPARTMENT AUTHORITY

Public Resources Code, Divisions 6, 7.7, and 7.8; Government Code, Title 2, Division 1; Statutes of 1956 (1st Extraordinary Session); Chapter 138, Statutes of 1964 (1st Extraordinary Session); Chapter 941, Statutes of 1991; Chapter 1213, Statutes of 1983; Chapter 879, Statutes of 1984; Chapter 1248, Statutes of 1990; Chapter 849, Statutes of 1999.

#### PROGRAM AUTHORITY

10-Mineral Resources Management:

Division 6, Public Resources Code; Chapter 29, Statutes of 1956 (1st Extra Session); Chapter 138, Statutes of 1964 (1st Extraordinary Session); Chapter 941, Statutes of 1991.

20-Land Management:

\* Dollars in thousands, except in Salary Range.

## 3560 State Lands Commission - Continued

Division 6 and 7.7 Public Resources Code, Chapter 1213, Statutes of 1983; Chapter 879, Statutes of 1984.

40-Marine Facilities Management:

Division 1 of Title 2, Government Code; Division 7.8, Public Resources Code; Chapter 1248, Statutes of 1990; Chapter 849, Statutes of 1999.

### MAJOR PROGRAM CHANGES

- Marine Invasive Species Program Research - The Budget includes \$300,000 Marine Invasive Species Control Fund for research on ballast water treatment technologies.

### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$946,000 and 7.6 positions for 2008-09.

The major budget balancing reductions include:

- 2008-09

Reduce \$611,000 and 5.7 positions from the Land Management Division. This reduction will decrease management activities such as appraisals, rent reviews, and ownership boundary determinations on state owned properties.

Reduce \$335,000 and 1.9 positions from the Mineral Resources Division. This reduction will decrease the oversight of royalty income and operations of existing oil and gas leases.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 10 - MINERAL RESOURCES MANAGEMENT

The State Lands Commission oversees any extraction of mineral resources that are located on state lands. The Commission also controls the development and operation of the Long Beach tidelands oil operations. The objectives of the Mineral Resources Management Program are to manage the orderly extraction of oil, gas, geothermal resources and other minerals; maximize the revenue generated from extractive activities consistent with the best interests of the state, and ensure the efficient development of these resources consistent with public safety considerations and environmental protection.

#### 20 - LAND MANAGEMENT

This program manages all state sovereign lands to ensure use of the lands is consistent with the public trust and prudent land use practices. The program also manages all state school lands to ensure the maximum return to the State Teachers' Retirement System.

\* Dollars in thousands, except in Salary Range.

## 3560 State Lands Commission - Continued

### 30 - EXECUTIVE AND ADMINISTRATION

The Executive and Administration program provides management, policy direction and administrative support to the line programs of the Commission.

### 40 - MARINE FACILITIES MANAGEMENT

The State Lands Commission adopts rules, regulations, guidelines and leasing policies for leasing and operating existing and proposed marine terminals within California. The Commission also inspects all marine facilities and reviews oil spill contingency plans and marine facility operations manuals.

**INFRASTRUCTURE OVERVIEW**

The California State Lands Commission operates five facilities statewide. Two are regional headquarters, each co-located with a field office, one located in Sacramento and the other in Long Beach. The three remaining facilities are field offices only, one in Northern California and two in Southern California. Of the five facilities, one is state-owned (Huntington Beach Field Office), and the other four are in leased space.

### 3600 Department of Fish and Game

The Mission of the Department of Fish and Game (Department) is to manage California's diverse fish, wildlife, and plant resources, and the habitats upon which they depend, for their ecological values and for their use and enjoyment by the public.

This includes habitat protection and maintenance in a sufficient amount and quality to ensure the survival of all species and natural communities. The Department is also responsible for the diversified use of fish and wildlife including recreational, commercial, scientific, and educational uses.

Since department programs drive the need for infrastructure investment, the Department has a related capital outlay program to support this need. For the specifics on the Department of Fish and Game's Capital Outlay Program, see "Infrastructure Overview."

## 3600 Department of Fish and Game - Continued

Section 20, Article IV of the Constitution; Fish and Game Code Sections 30, 101-106, 200-250, 300-317, 325-332, 355-357, 375, 390, 395-398, 400-401, 450-460, 10503.

### MAJOR PROGRAM CHANGES

- Suction Dredge Program Environmental Review - The Budget includes \$1 million General Fund to conduct a court-ordered environmental review of the Department of Fish and Game's Suction Dredge program and mining regulations.
- Oil Spill Prevention and Response - The Budget includes \$250,000 Oil Spill Prevention and Administration Fund in local assistance to provide continued funding to the San Francisco Bay Physical Oceanographic Real Time System (PORTS). The PORTS provides real-time information on tides, tidal currents, and meteorological conditions, and is an asset for safe navigation, spill response, and search and rescue operations. The Department is currently developing a proposal to enhance the PORTS program.
- Proposition 84: Ecosystem Restoration Program - The Budget includes \$21 million from Proposition 84 funds and 16.1 positions to continue activities to protect the water quality in the Bay Delta region.
- Proposition 84: Salton Sea Restoration - The Budget includes a \$10.8 million transfer from Proposition 84 funds to the Salton Sea Restoration Fund and 2.8 positions to fund critical Salton Sea restoration activities.
- Proposition 84: Anadromous Fish Management - The Budget includes \$10.9 million from Proposition 84 funds and 13.6 positions for Coastal Salmonid Monitoring Plan implementation, Coho Recovery Plan implementation, and Coastal Steelhead and Chinook Recovery.

### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$1.7 million in 2007-08 and \$8.4 million and 59.9 positions in 2008-09.

The major budget balancing reductions include:

- 2007-08

Reduce \$1.4 million from the Biodiversity Conservation Program. This reduction will reduce funding for the Fisheries Restoration Grant Program.

Reduce \$165,000 from the Hunting, Fishing, and Public Use Program. This reduction will reduce funding for a White Sea Bass survey.

Reduce \$152,000 from Administration. This reduction will reduce funding for the Lands Database.

- 2008-09

Reduce \$3.6 million and 20.9 positions from the Biodiversity Conservation Program. This reduction will reduce funding for the development of Natural Community Conservation Plans, timber harvest reviews, incidental take permit reviews, and other biodiversity conservation programs.

Reduce \$1.2 million and 2.9 positions from the Hunting, Fishing, and Public Use Program. This reduction will reduce funding for bottom trawl permit implementation, fish surveys, and avian influenza monitoring.

Reduce \$2.6 million and 36.1 positions from the Enforcement Program. This reduction will eliminate 38 fish and game warden positions, out of 370 existing enforcement positions. These wardens are responsible for enforcing fish and game laws, inspecting vessels for quagga mussels, and protecting sensitive populations of marine species.

Reduce \$1 million from Administration. This reduction will reduce funding for training, accounting, and information technology contracts.

## 3600 Department of Fish and Game - Continued

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 20 - BIODIVERSITY CONSERVATION PROGRAM

This program encourages the preservation, conservation, maintenance, and restoration of wildlife resources, including the Ecosystem Restoration Program, under the jurisdiction and influence of the state. Activities involve the conservation, protection and management of fish, wildlife, native plants, and habitat to ensure maintenance of biologically sustainable populations of those species.

#### 25 - HUNTING, FISHING, AND PUBLIC USE PROGRAM

This program facilitates diverse and sustainable hunting, fishing (recreational and commercial), trapping, and other public uses and associated economic benefits to the state by conserving and managing game species. Activities include collection and assessment of information on the distribution and abundance of game fish and wildlife to determine appropriate regulations (bag limits, gear restrictions, etc.) and to monitor the effects of those regulations.

#### 30 - MANAGEMENT OF DEPARTMENT LANDS AND FACILITIES PROGRAM

This program manages Department-owned or leased lands and facilities, including hatcheries, wildlife areas, ecological reserves, fish and wildlife laboratories, and public access areas, to contribute to the conservation, protection, and management of fish and wildlife.

#### 40 - LAW ENFORCEMENT PROGRAM

This program serves the public through law enforcement, public safety and hunter education. Law enforcement promotes compliance with laws and regulations protecting fish and wildlife resources; investigates habitat destruction, pollution incidents and illegal commercialization of wildlife. Wardens also serve the public through general law enforcement, mutual aid and homeland security.

#### 45 - COMMUNICATIONS, EDUCATION, AND OUTREACH PROGRAM

This program serves the public through resource conservation education and use activities in the classroom and on public and private lands, community and stakeholder outreach, and the delivery of information and data using a variety of methods including publications, presentations, web applications and media relations.

#### 50 - SPILL PREVENTION AND RESPONSE PROGRAM

This program prevents damage, minimizes environmental impacts, restores, and rehabilitates California's fish and wildlife populations and their habitats from the harmful effects of oil and other deleterious material spills in marine waters and inland habitats.

#### 61 - FISH AND GAME COMMISSION

The California Fish and Game Commission ensures the long term sustainability of California's fish and wildlife resources by guiding the ongoing scientific evaluation and assessment of California's fish and wildlife resources; setting California's fish and wildlife resource management policies and insuring these are implemented by the Department of Fish and Game; establishing appropriate fish and wildlife resource management rules and regulations; and building active fish and wildlife resource management partnerships with individual landowners, the public and interest groups, and federal, State and local resource management agencies.

**INFRASTRUCTURE OVERVIEW**

The Department of Fish and Game (DFG) manages 716 properties statewide, comprising more than one million acres (606,306 acres owned and 476,335 acres owned by other entities, but administered by DFG). Since several state agencies purchase land for the purpose of habitat or wildlife protection, and management responsibilities of these properties are often transferred to the DFG, the number of properties is continually increasing. The current inventory includes: 110 wildlife areas, 123 ecological reserves, 11 marine reserves, 180 public access areas, 21 fish hatcheries, 233 lands that have not yet been designated, and 38 other types of properties.

## 3640 Wildlife Conservation Board

The Wildlife Conservation Board administers a statewide capital outlay program for the acquisition, restoration and enhancement of wildlife habitat, and development of wildlife-oriented public access and recreational facilities areas.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Wildlife Conservation Board's Capital Outlay Program, see "Infrastructure Overview."

### 3-YR EXPENDITURES AND POSITIONS (Summary of Program Requirements)

		Positions			Expenditures		
		2006-07	2007-08	2008-09	2006-07*	2007-08*	2008-09*
10	Wildlife Conservation Board	21.0	27.0	28.4	\$2,102	\$4,356	\$4,346

6051	Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Fund of 2006				3	789	790
<b>TOTALS, EXPENDITURES, ALL FUNDS</b>					<b>\$2,102</b>	<b>\$4,356</b>	<b>\$4,346</b>

The two new positions shown in the Changes in Authorized are funded from existing resources.

### LEGAL CITATIONS AND AUTHORITY

#### DEPARTMENT AUTHORITY

Fish and Game Code, Division 2, Chapter 4, Article 1, Section 1300 through Section 1431.

### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$20,000 in 2008-09.

The major budget balancing reductions include:

- 2008-09

Reduce \$20,000 from the Wildlife Conservation Board's operating expense and equipment funding.

### DETAILED BUDGET ADJUSTMENTS

**INFRASTRUCTURE OVERVIEW**

Between the years 2000 to 2007, the Wildlife Conservation Board has helped fund and protect over 720,000 acres of wildlife habitat through a combination of fee and conservation easement acquisitions. In addition, funding has been authorized to enhance and restore approximately 215,000 acres of riparian, wetland, fisheries and other wildlife related habitat areas within the State. The Board has also helped fund and has taken action on over 87 projects involving the development of wildlife-oriented public access facilities.

**MAJOR PROJECT CHANGES**

- Natural Communities Conservation Plan: The Budget includes \$25 million Proposition 84 funds for grants to local agencies to develop Natural Communities Conservation Plans.
- Habitat Protection and Enhancement: The Budget provides \$20.7 million Habitat Conservation Fund for habitat protection, restoration, and enhancement projects.

\* Dollars in thousands, except in Salary Range.

**3680 Department of Boating and Waterways**

The Department of Boating and Waterways funds, plans, and develops boating facilities on waterways throughout California and ensures safe boating for the public by providing financial aid and training to local law enforcement agencies. In addition, the Department has responsibility for boating safety and education, licensing of yacht and ship brokers and salespeople, aquatic weed control in the Sacramento-San Joaquin Delta, and beach erosion control and sand renourishment along California's coast and operates an oceanography program at the Scripps Institution of Oceanography at La Jolla.

\* Dollars in thousands, except in Salary Range.

## 3680 Department of Boating and Waterways - Continued

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Department of Boating and Waterways' Capital Outlay Program, see "Infrastructure Overview."

### LEGAL CITATIONS AND AUTHORITY

#### DEPARTMENT AUTHORITY

Harbors and Navigation Code, Division 1, Chapters 1 - 4.

### MAJOR PROGRAM CHANGES

- Boating Facility Construction Loans and Grants - The Budget includes \$31 million Harbors and Watercraft Revolving Fund to provide funding for boating facility construction loans and grants, including \$22 million in public loans to develop, construct, and renovate marinas, \$3.7 million in local assistance grants, and \$5 million to fund private marina construction loans statewide.
- Beach Erosion Control - The Budget provides a transfer of \$6.5 million Harbors and Watercraft Revolving Fund to the Public Beach Restoration Fund to provide funding for the SANDAG Regional Beach Sand Project, which will restore beaches at 12 sites to provide the necessary beach width to maintain coastal access and recreation, ensure public safety, protect public infrastructure, and restore threatened coastal habitats.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 10 - BOATING FACILITIES

The Boating Facilities program provides funding through its local assistance programs to expand and improve public boater access to California's waterways. To accomplish this, the department:

- Grants funds to cities, counties and other governmental agencies for the design and construction of boat launching facilities, floating restrooms, vessel sewage pumpouts, and non-motorized boating access trails and launch facilities.
- Loans funds to cities, counties, and districts for the planning, design and construction of small craft harbors.
- Loans funds to private, for-profit businesses for the development of recreational marinas.
- Provides aquatic weed control in the Sacramento-San Joaquin Delta, its tributaries and the Suisun Marsh.
- Grants funds, on a cost-sharing basis, to local and federal agencies to finance beach erosion control measures to protect coastal resources.

The Department also has the statutory responsibility to plan, design and construct all recreational boating facilities in State Parks and on the State Water Project. The Department's capital outlay program also constructs recreational boating facilities on state-owned or state-managed property.

The Department also conducts research and studies on coastal processes through its oceanography program.

#### 20 - BOATING OPERATIONS

The Boating Operations programs work to ensure safe and enjoyable boating on California waters. Program activities include promoting boating safety and education, providing financial assistance and training to local boating law enforcement agencies, ensuring uniformity in boating enforcement, and licensing for-hire boat operators and yacht and ship brokers and salespeople. Statistical information is gathered on boating accidents to monitor accident trends and problem areas, and the causes of accidents are analyzed and documented. The results of these findings are used to direct outreach of various Department programs. Grants are provided to local public agencies for the removal of abandoned vessels on navigable waterways.

#### 30 - BEACH EROSION CONTROL

The Beach Erosion Control and Public Beach Restoration programs help mitigate coastal erosion by studying the causes of erosion, constructing beach enhancements, and other restoration efforts. Regional beach erosion restoration projects are constructed by the U.S. Army Corps of Engineers in cooperation with state and local agencies. Localized beach restoration is typically constructed by local agencies with state cooperation.

#### 40 - ADMINISTRATION

The Administrative Services Division consists of accounting, budgeting, business services, information technology, and personnel. The effective provision of these services ensures the delivery of timely, reliable and accountable services to the boaters of California.

## 3720 California Coastal Commission

The California Coastal Commission, comprised of 12 voting members appointed equally by the Governor, the Senate Rules Committee, and the Speaker of the Assembly, was created by voter initiative in 1972 and was made permanent by the California Coastal Act of 1976 (Coastal Act). The Coastal Act calls for the protection and enhancement of public access and recreation, marine resources, environmentally sensitive habitat areas, marine water quality, agriculture, and scenic resources, and makes provisions for coastal-dependent industrial and energy development. New development in the coastal zone requires a coastal permit either from local government or the Commission. Local governments are required to prepare a local coastal program (LCP) for the coastal zone portion of their jurisdiction. After an LCP has been reviewed and approved by the Commission as being consistent with the Coastal Act, the Commission's regulatory authority over most types of new development is delegated to the local government, subject to limited appeals to the Commission. The Commission also is designated the principal state coastal management agency for the purpose of administering the federal Coastal Zone Management Act in California and has exclusive regulatory authority over federal activities such as permits, leases, federal development projects, and other federal actions that could affect coastal zone resources and that would not otherwise be subject to state control.

### LEGAL CITATIONS AND AUTHORITY

#### DEPARTMENT AUTHORITY

Public Resources Code, Division 20, Section 30000 et seq. and Title 16, United States Code, Chapter 33, Section 1451 et seq.

### MAJOR PROGRAM CHANGES

- Operating Expense Budget Restoration - The Budget includes \$524,000 Coastal Access Account to upgrade the Commission's information technology equipment and other operating expenses.

### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$1.2 million and 16.2 positions in 2008-09.

The major budget balancing reductions include:

- 2008-09

Reduce \$956,000 and 14.3 positions from the Coastal Management Program. This reduction will decrease the resources available for reviewing permits and local coastal programs, and enforcement activities.

Reduce \$52,000 from the Coastal Energy Program. This reduction will decrease the resources available for reviewing industrial and infrastructure projects.

Reduce \$173,000 and 1.9 positions from Administration.

## PROGRAM DESCRIPTIONS (Program Objectives Statement)

## 10 - COASTAL MANAGEMENT PROGRAM

The objectives of the Coastal Management Program are to implement coastal resources conservation through planning and regulation. Activities include:

- Reviewing and approval of local coastal programs (LCPs), port master plans, university long-range development plans, and any amendments to such plans, for consistency with the Coastal Act.
- Reviewing coastal development permit applications for new development in areas without a certified LCP, areas of permanently retained jurisdiction (e.g., tidelands, submerged lands, and public trust lands) and limited categories of local coastal development permit actions that can be appealed to the Commission.
- Monitoring and enforcement of coastal development permits.
- Reviewing federal activities for consistency with the Coastal Act.
- Protecting and expanding opportunities for public coastal access and recreation.
- Implementing a coastal water quality protection program.
- Providing technical information and assistance to support effective coastal management.
- Implementing a coastal and ocean resource public education program.

## 20 - COASTAL ENERGY PROGRAM

The Coastal Energy Program addresses coastal energy issues including, but not limited to, offshore oil and gas development, electricity generating power plant expansion and development, and siting and development of liquefied natural gas facilities.

## 30 - ADMINISTRATION

The objective of the Administration Program is to provide administrative support including accounting, budgeting, business services, support services, information technology, and personnel to other departmental programs.

**3760 State Coastal Conservancy**

The State Coastal Conservancy develops and implements programs to protect, restore and enhance natural, recreational, and economic resources along California's coast, coastal watersheds, the ocean, and within the San Francisco Bay Area. Through direct funding and grants to local agencies and nonprofit organizations, the Coastal Conservancy supports the following projects:

- Restoration and enhancement of the natural environment and scenic lands.
- Development of public access.
- Protection of agricultural lands through purchase of development rights and fee interests.
- Resolution of land-use and development conflicts.
- Restoration of urban waterfronts to increase tourism and public access, provide parks and open space, and encourage private-sector development.
- Restoration of watersheds and ocean resources to improve water quality and improve habitat values.
- Acquisition of threatened resource lands.
- Education programs on coastal resources for kindergarten through grade 12.

Pursuant to the California Ocean Protection Act (Public Resources Code Section 35500 et seq.), the Coastal Conservancy serves as staff and fiscal agent for the California Ocean Protection Council. The mission of the California Ocean Protection Council is to ensure that California maintains healthy, resilient, and productive ocean and coastal ecosystems for the benefit of current and future generations.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the State Coastal Conservancy's Capital Outlay Program, see "Infrastructure Overview."

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 15 - COASTAL RESOURCE DEVELOPMENT PROGRAM

The Coastal Resource Development Program:

- Preserves coastal agricultural land.
- Assists in the design or redesign of subdivisions and waterfronts to encourage appropriate public/private development and use.
- Protects and provides public access ways to the coastal and bay-shore lands with high scenic, recreational or habitat value.
- Acquires important coastal resource lands for eventual conveyance to public agencies or qualified nonprofit organizations.
- Enhances the capacity and performance of government programs to meet the goals of the California Ocean Protection Act (COPA).
- Improves the understanding of ocean and coastal ecosystems.
- Promotes ocean and coastal awareness and stewardship.

#### 25 - COASTAL RESOURCE ENHANCEMENT

The Coastal Resource Enhancement Program creates and restores fish and wildlife habitats, including enhancement of watersheds, wetlands, ocean resources, and riparian corridors. The program provides technical assistance and mediation to resolve land use conflicts in a manner that preserves, restores or establishes wildlife habitats. The program also provides funding for planning and implementing resource restoration and enhancement projects, including projects to improve ocean and coastal water quality, improve the quantity and quality of ocean and coastal habitat in California, and increase healthy ocean and coastal wildlife populations and communities in California. The program also provides funds for the design and construction of nature centers.

**INFRASTRUCTURE OVERVIEW**

The State Coastal Conservancy grants funds to local governments, nonprofits and other project partners for the acquisition of land and easements, and the development of public facilities, to implement the State's Coastal Management Program and the California Ocean Protection Act. Over the past three years, the Conservancy has participated in the acquisition of more than 75,000 acres of coastal lands and easement interests.

**MAJOR PROJECT CHANGES**

- Coastal Conservancy Programs: The Budget includes \$89.1 million Proposition 84 funds to carry out projects relating to the enhancement and development of the Santa Ana River Parkway, San Francisco Bay Area Conservancy Program, Monterey Bay, San Diego Bay and other projects statewide.
- Ocean Protection Council: The Budget provides \$26.4 million from the California Ocean Protection Trust Fund/Proposition 84 funds to improve the protection and management of California's ocean and coastal resources.

\* Dollars in thousands, except in Salary Range.

### 3780 Native American Heritage Commission

The Native American Heritage Commission preserves and protects California Native American cultures by identifying and cataloging geographic sites of importance to Native Americans, helping Native Americans obtain access to these sites when necessary, protecting Native American burial and sacred sites, ensuring that remains are treated appropriately when burial sites are discovered, and mitigating negative impacts resulting from development projects.

### LEGAL CITATIONS AND AUTHORITY

#### DEPARTMENT AUTHORITY

Public Resources Code Sections 5097.9-5097.99.

### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$79,000 and 1.4 positions in 2008-09.

The major budget balancing reductions include:

- Reduce \$79,000 and 1.4 positions for the Native American Heritage Commission. This reduction will decrease resources available for mediation of disputes between landowners and Native Americans.

### 3790 Department of Parks and Recreation

The mission of the California Department of Parks and Recreation is to provide for the health, inspiration, and education of the people of California by helping to preserve the state's extraordinary biological diversity, protecting its most valued natural, cultural and historical resources, and creating opportunities for high-quality outdoor recreation for current and future generations to enjoy. With increased urbanization, the establishment of park units and recreation areas accessible to the major population centers of the state has become particularly important. Specific activities include stewardship of natural resources, historic, cultural and archeological sites, artifacts and structures, provision of interpretive services for park visitors, construction and maintenance of campsites, trails, visitor centers, museums, and infrastructure such as roads and water systems, and creation of recreational opportunities such as hiking, bicycling, fishing, swimming, horseback riding, jogging, camping, picnicking, and off-highway vehicle recreation.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Department of Parks and Recreation's Capital Outlay Program, see "Infrastructure Overview."

\* Dollars in thousands, except in Salary Range.

### LEGAL CITATIONS AND AUTHORITY

#### DEPARTMENT AUTHORITY

Public Resources Code, Division 1, Chapter 1 et seq.; and Public Resources Code, Division 5, Chapter 1 et seq.

### MAJOR PROGRAM CHANGES

- Improve the Detection and Prevention of Fires at State Parks: The Budget includes \$3 million General Fund and 28.5 park ranger positions to improve the detection and prevention of fires in fire prone areas of the state park system.
- Local Assistance Programs: The Budget provides \$45.6 million from various funds for recreational grants to federal, state, and local agencies, and non-profit organizations.
- Off-Highway Vehicle Program Expansion (SB 742): The Budget provides \$20.4 million Off-Highway Vehicle (OHV) Trust Fund and 84 positions for the department to expand its OHV program consistent with Chapter 541, Statutes of 2007 (SB 742).
- Proposition 84 Funding: The Budget includes \$16.7 million Proposition 84 funds for deferred maintenance, interpretive exhibits, and cultural and natural stewardship programs.

### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$1.0 million in 2007-08 and \$13.3 million and 129.2 positions in 2008-09.  
The major budget balancing reductions include:

\* Dollars in thousands, except in Salary Range.

## 3790 Department of Parks and Recreation - Continued

- 2007-08

Reduce \$1.0 million from the department's general operational support funding.

- 2008-09

Reduce \$8.883 million and 117.8 positions from the field units of the state park system. This reduction will close 48 state parks out of 278 existing parks and reduce seasonal lifeguards at state beaches in Orange, San Diego and Santa Cruz Counties by a minimum of 50 percent.

Reduce \$4.439 million and 11.4 positions from the administrative and managerial support functions of the department.

### DETAILED BUDGET ADJUSTMENTS

#### INFRASTRUCTURE OVERVIEW

The State Park System includes 278 units, including parks, beaches, trails, wildlife areas, open spaces, off-highway vehicle areas, and historic sites. The State Park System is responsible for almost one-third of California's scenic coastline and manages coastal wetlands, estuaries, beaches, and dune systems. The State Park System consists of approximately 1.5 million acres, including: over 300 miles of coastline, 970 miles of lake, reservoir and river frontage, approximately 15,000 campsites and alternative camping facilities, and 4,000 miles of non-motorized trails. The facilities aid the Department's mission of providing for the health, inspiration and education of the people of California by helping to preserve the state's extraordinary biological diversity, protecting its most valued natural and cultural resources, and creating opportunities for high-quality outdoor recreation.

## 3810 Santa Monica Mountains Conservancy

The Santa Monica Mountains Conservancy acquires, restores and consolidates lands in the Santa Monica Mountains for park, recreation and conservation purposes. The Conservancy may:

- Lease, rent, sell, transfer or exchange lands for park purposes.
- Award grants or interest free loans to state and local agencies to purchase or restore park, recreation, conservation or buffer-zone areas to ensure that the character and intensity of development on these lands is generally compatible with and does not adversely impact the environment.
- Implement programs to improve access from the inner city areas surrounding the Conservancy, thereby providing recreational opportunities for all residents.
- Manage the Rim of the Valley Trail Corridor recreational trail.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Santa Monica Mountains Conservancy's Capital Outlay Program, see "Infrastructure Overview."

### INFRASTRUCTURE OVERVIEW

Since its creation in 1979, the Santa Monica Mountains Conservancy has helped to protect, either through direct acquisition or local assistance grants, more than 65,000 acres of open space in the Santa Monica Mountains and Rim of the Valley Trail Corridor Region.

### MAJOR PROJECT CHANGES

- Acquisition and Local Assistance Grants: The Budget includes \$20 million Proposition 84 funds to protect Santa Monica Bay and its watersheds.

### 3820 San Francisco Bay Conservation and Development Commission

The San Francisco Bay Conservation and Development Commission is a state agency with regional authority responsible for protecting the Bay and its shoreline. The Commission maintains the San Francisco Bay Plan. Based on this plan, the Commission issues or denies permits for filling, dredging, and land development projects within the Bay, along the Bay shoreline and within other "managed wetlands" adjacent to the Bay. The Commission also implements the Suisun Marsh Preservation Act of 1977. Furthermore, the Commission is responsible for managing the Bay segment of the California coastal zone under the federal Coastal Zone Management Act. Under this federal law, the Commission develops and implements the federally approved coastal management program for the Bay and exercises authority over federal activities otherwise not subject to state control. Partial reimbursement is derived from federal grants received by the California Coastal Commission.

The Commission deposits the permit fees it receives into the General Fund. In 2006-07, \$395,000 was deposited into the General Fund, and the projected revenues to the General Fund for 2007-08 and 2008-09 are \$420,000 and \$480,000 respectively.

#### 3-YR EXPENDITURES AND POSITIONS (Summary of Program Requirements)

#### LEGAL CITATIONS AND AUTHORITY

##### DEPARTMENT AUTHORITY

Government Code, Title 7.2, Section 66600 et seq.; and Public Resources Code, Division 19 (beginning with Section 29000).

#### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$457,000 and 3.8 positions in 2008-09.

The major budget balancing reductions include:

- 2008-09

Reduce \$457,000 and 3.8 positions from the Bay Conservation and Development Program. This reduction will decrease resources available for permitting work and project evaluations.

**3825 San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy**

Established in 1999, the San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy's mission is to acquire and manage public lands to provide open space, low-impact recreational uses, educational uses, water conservation and watershed improvement, wildlife and habitat restoration and protection, and preserve the San Gabriel Mountains and the San Gabriel and Lower Los Angeles Rivers, and their tributaries, consistent with existing and adopted river and flood control projects for the protection of life and property.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the San Gabriel and Lower Los Angeles Rivers and Mountains

\* Dollars in thousands, except in Salary Range.

## 3825 San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy - Continued

## 3830 San Joaquin River Conservancy

The mission of the San Joaquin River Conservancy is to provide leadership and acquire, preserve, manage, and promote access to lands within the flood plain on both sides of the San Joaquin River from Friant Dam to Highway 99.

Specific activities are to:

- Implement the San Joaquin River Parkway Master Plan, a 22-mile regional greenspace and wildlife corridor along both sides of the river extending from Friant Dam to Highway 99, with an interconnected trail system and recreational and educational features.
- Acquire approximately 5,900 acres from willing sellers.
- Operate and manage lands for public enjoyment consistent with the protection of natural resources.
- Protect, enhance, and restore riparian and riverine habitat and ecological diversity.
- Facilitate the development of the parkway, garner public support, and secure its future.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the San Joaquin River Conservancy's Capital Outlay Program, see "Infrastructure Overview."

#### INFRASTRUCTURE OVERVIEW

The Conservancy oversees 2,178 acres within the San Joaquin River Parkway for habitat conservation and restoration, public access and recreation opportunities, and cultural asset and historical resource preservation. Additional acquisitions have been approved, with the goal of securing 5,900 acres (some owned by partner entities) for conservation purposes.

#### MAJOR PROJECT CHANGES

- Environmental Acquisition and Restoration Projects: The Budget includes \$10 million Proposition 84 funds and \$2 million in reimbursements for the San Joaquin River Conservancy's environmental acquisition and restoration and public access and recreation projects. Of this amount, \$11 million is provided to the San Joaquin River Conservancy through the Wildlife Conservation Board.

### 3835 Baldwin Hills Conservancy

The Baldwin Hills Conservancy was established in 2000 to acquire open space and manage public lands within the Baldwin Hills area and to provide recreation, restoration and protection of wildlife habitat for the public's enjoyment and educational experience.

Specific agency responsibilities are to:

- Approve the Baldwin Hills Park Master Plan
- Prioritize and implement acquisition of additional recreational and open space land for the expansion of Kenneth Hahn State Recreation Area

\* Dollars in thousands, except in Salary Range.

## 3835 Baldwin Hills Conservancy - Continued

- Conduct the necessary planning activities for the area
- Develop and coordinate a program of resource stewardship for optimum recreational and natural resource value based on the needs of the surrounding community

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Baldwin Hills Conservancy's Capital Outlay Program, see 'Infrastructure Overview.'

#### INFRASTRUCTURE OVERVIEW

Since its inception, the Conservancy's acquisition program has resulted in a 33 percent increase in public lands for the expansion of Kenneth Hahn State Recreation Area. The Conservancy territory includes a total of 1,427 acres of open space, the largest swath of contiguous unpaved land in the entire 127 square-mile Ballona Creek Watershed of Los Angeles County. Approximately 768 acres are currently protected. The Master Plan calls for the acquisition and development of the remaining balance of privately held open space to implement the community-based vision for a two square-mile urban park and natural recreation area.

#### MAJOR PROJECT CHANGES

- Acquisition and Improvement Programs: The Budget includes \$3 million Proposition 84 funds and \$1 million in reimbursements for the Baldwin Hills Conservancy's environmental acquisition and improvement programs.

### 3840 Delta Protection Commission

The mission of the Delta Protection Commission (Commission) is to adaptively protect, maintain, and where possible, enhance and restore the overall quality of the Delta environment consistent with the Delta Protection Act, and the Land Use and Resource Management Plan for the Primary Zone (Regional Plan). This includes, but is not limited to, agriculture, wildlife habitat, and recreational activities. The goal of the Commission is to ensure orderly, balanced conservation and development of Delta land resources and improved flood protection.

### 3845 San Diego River Conservancy

The mission of the San Diego River Conservancy is to acquire and manage public lands within the San Diego River area, and to provide recreational opportunities, open space, wildlife habitat, species protection, wetland protection and restoration, and protection and maintenance of the quality of the San Diego River. The Conservancy also provides an enhanced recreational and educational experience on public lands for the public's benefit in a manner that protects the land, natural resources, and the economic resources of the area.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the San Diego River Conservancy's Capital Outlay Program, see "Infrastructure Overview."

### 3850 Coachella Valley Mountains Conservancy

The mission of the Coachella Valley Mountains Conservancy is to acquire and hold as open space mountainous lands surrounding the Coachella Valley and natural community conservation lands within the Coachella Valley. The Conservancy also provides for the protection of wildlife and the enhancement of recreational and educational experiences on those lands.

Specific activities are to:

- Acquire lands to protect biological, scenic, cultural, and recreational resources in the Coachella Valley and surrounding mountains.
- Provide enhanced educational, interpretive, and recreational opportunities for the public to increase their appreciation, understanding, and enjoyment of the mountains and conservation lands in the Coachella Valley.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Coachella Valley Mountains Conservancy's Capital Outlay Program, see "Infrastructure Overview."

### INFRASTRUCTURE OVERVIEW

The Conservancy has acquired 4,659 acres within the Coachella Valley and the Santa Rosa and San Jacinto Mountains for the public's enjoyment and for use consistent with the protection of cultural, scientific, scenic, and wildlife resources. In addition, the Conservancy has made grants for the acquisition of an additional 25,247 acres by other entities. The Conservancy's five-year infrastructure plan calls for the acquisition of an additional 14,580 acres in that period.

\* Dollars in thousands, except in Salary Range.

## 3855 Sierra Nevada Conservancy

The Sierra Nevada Conservancy's mission is to initiate, encourage, and support efforts that improve the environmental, economic and social well-being of the Sierra Nevada Region, its communities and the citizens of California. The Conservancy achieves its mission through the awarding of grants and loans, development of projects and programs, providing technical assistance and assisting in collaborative efforts with a broad array of governmental and non governmental partners.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 10 - SIERRA NEVADA CONSERVANCY PROGRAM

Established pursuant to Chapter 726, Statutes of 2004, the Conservancy is authorized to:

- Provide increased opportunities for tourism and recreation;
- Protect, conserve, and restore the region's physical, cultural, archaeological, historical, and living resources;
- Aid in the preservation of working landscapes;
- Reduce the risk of natural disasters, such as wildfires;
- Protect and improve water and air quality;
- Assist the regional economy through the operation of the Conservancy's program;
- Undertake efforts to enhance public use and enjoyment of lands owned by the public.

In support of these programs, the Conservancy facilitates collaborative planning efforts with local and regional governments, community groups and interested parties, provides technical assistance, and conducts research and monitoring and initiates and funds project to identify and fill critical needs in the Sierra Nevada region.

### 3860 Department of Water Resources

The Department of Water Resources protects, conserves, develops, and manages California's water. The Department evaluates existing water resources, forecasts future water needs and explores future potential solutions to meet ever-growing needs for personal use, irrigation, industry, recreation, power generation, and fish and wildlife. The Department also works to prevent and minimize flood damage, ensure the safety of dams, and educate the public about the importance of water and its proper use.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Department of Water Resources' Capital Outlay Program, see "Infrastructure Overview."

### LEGAL CITATIONS AND AUTHORITY

#### DEPARTMENT AUTHORITY

California Water Code, Division 1, Chapter 2, Article 1.

### MAJOR PROGRAM CHANGES

- California Central Valley Flood Protection Board - The Budget provides \$2 million General Fund to establish the Central Valley Flood Protection Board (Board) per Chapters 365 and 366, Statutes of 2007 (SB 17 and AB 5) as an independent program within the Department of Water Resources. The Board cooperates with various State, federal, and local government agencies in establishing, planning, constructing, operating, and maintaining flood control works. The Board also maintains the integrity of the existing flood control system and designated floodways through its regulatory authority by issuing permits for encroachments that comply with Board standards.
- Flood Control Investments - The Budget provides \$461.1 million from Propositions 1E and 84 and 14.2 positions for investments to improve the state's flood control systems. This funding includes \$371.8 million for local assistance including flood control subventions, grants for projects to improve flood protection in urban Central Valley areas, support for local maintenance and improvements of delta levees, grants for new flood control feasibility studies and levee evaluations, and programs to improve floodway corridors. Additionally, \$89.3 million is provided for state operations, including emergency preparedness in the Delta, development of technical data to support potential reservoir re-operation, implementation of recommendations of the Alluvial Fan Task Force, and administration and technical assistance for grant programs.
- Colorado River Quantification Settlement Agreement (QSA) Projects - The Budget provides \$13.5 million General Fund for the lining of the All American and Coachella canals, and other projects to reduce the state's use of Colorado River water. This funding is consistent with the QSA, which is a comprehensive agreement between the federal government, state, and various water agencies to reduce California's use of Colorado River water. These projects are estimated to save approximately 100,000 acre feet of Colorado River water per year.
- Integrated Regional Water Management - The Budget provides \$452 million from Propositions 84 and 1E and 12.3 positions for projects to protect communities from drought, protect and improve water quality, improve stormwater management, and reduce dependence on imported water. This funding includes \$419.5 million for local assistance grants and \$32.5 million for state operations for grant administration, technical assistance, and improving systems for collection and dissemination of water quality and groundwater monitoring data.
- Alternative Delta Conveyance - The Budget provides \$1.4 million State Water Project funds to review and update existing and collect necessary new information to begin preparation of an Environmental Impact Report/Environmental Impact Statement to develop options for an alternative Delta conveyance facility consistent with the Delta Vision.

### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$200,000 in 2007-08 and \$7.3 million in 2008-09.
- The following programs totaling \$75.4 million General Fund have been exempted from the budget balancing reductions:  

Scheduled expenditures of \$61.9 million for the Paterno settlement.

Scheduled expenditures of \$13.5 million for projects to implement the Colorado River Quantification Settlement Agreement.

The major budget balancing reductions include:

\* Dollars in thousands, except in Salary Range.

## 3860 Department of Water Resources - Continued

- 2007-08

Reduce \$200,000 for flood management. This reduction will decrease resources available for floodplain management.

- 2008-09

Reduce \$1.6 million for water management activities. This reduction will reduce resources available for the 2009 California Water Plan Update and data collection and analysis.

Reduce \$5.4 million for flood management activities. This reduction will reduce General Fund resources available for erosion repairs, sediment removal, floodway protection, and floodplain evaluation. In the short run, this reduction will be partially offset by the availability of Proposition 1E and/or Proposition 84 funds for many of these programs.

Reduce \$200,000 for support of the Central Valley Flood Protection Board.

Reduce \$136,000 for support of the State Watermaster Program.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 10 - CONTINUING FORMULATION OF THE CALIFORNIA WATER PLAN

The California Water Plan is the state's strategic plan for the efficient use, management and development of the state's water resources. The Plan is updated every five years to provide decision-makers and water and resource managers information on current and future water demands and supplies. The plan also identifies management strategies such as conservation, recycling, desalination, transfers, storage, conveyance, quality, watershed management, ecosystem restoration, and urban land use management to help meet future demands in light of uncertainties and unexpected catastrophic events. The Plan also includes an assessment of regional water needs.

This program also identifies ways for the state to: (1) assist local agencies and governments prepare integrated regional water management plans on a watershed basis and diversify their regional water portfolios, (2) assist cities, counties and local agencies prepare a Water Element for their General Plans, Urban Water Management Plans and Agricultural Water Management Plans, and (3) help local agencies and governments improve coordination between water and land use planning.

#### 20 - IMPLEMENTATION OF THE STATE WATER RESOURCES DEVELOPMENT SYSTEM

The State Water Project is a water storage and delivery system that consists of 28 dams and reservoirs, 22 pumping plants, 3 pumping-generating plants, 5 hydroelectric power plants, and over 660 miles of canals and pipelines. The Project provides water to 23 million Californians and 755,000 acres of irrigated farmland.

The Department plans, designs, constructs, operates, maintains, and manages State Water Project facilities and provides water from the State Water Project to a network of physical facilities located from Plumas County to the Mexican Border.

\* Dollars in thousands, except in Salary Range.

## 3860 Department of Water Resources - Continued

### 30 - PUBLIC SAFETY AND PREVENTION OF DAMAGE

This program protects life and property from damage by floods, ensures proper construction and maintenance of jurisdictional dams and levees, and provides loans for construction, improvement and rehabilitation of domestic water systems to meet state standards for drinking water. Activities include preventive floodplain management to discourage unwise development in areas subject to flooding, protection of already developed floodplains, issuance of flood warnings in cooperation with the National Weather Service, operation of flood control facilities, coordination and supervision of flood fighting activities, and annual levee and flood channel maintenance and inspection. This program also buys land, easements, and rights-of-way for federal flood control projects and supervises the design and construction of new dams and periodic inspection and reevaluation of all existing jurisdictional dams for proper operation and maintenance. The program also reviews federal dam projects in coordination with federal and other state agencies with regard to dam safety.

### 35 - CENTRAL VALLEY FLOOD PROTECTION BOARD

The Central Valley Flood Protection Board's mission is to control flooding along the Sacramento and San Joaquin Rivers and their tributaries in cooperation with the United States Army Corps of Engineers to provide public safety through flood protection in the Central Valley. The Board cooperates with various agencies of the federal, State and local governments in establishing, planning, constructing, operating, and maintaining flood control works. The Board also maintains the integrity of the existing flood control system and designated floodways through its regulatory authority by issuing permits for encroachments that comply with Board standards.

### 40 - SERVICES

This program provides technical support within the Department and expertise in the fields of water resources planning, development and management; chemical laboratory analysis; electronic data processing; and mapping and surveying for other agencies.

### 45 - CALIFORNIA ENERGY RESOURCES SCHEDULING

For a limited period of time, this program purchased electric power on behalf of the state's investor-owned utilities. Beginning January 1, 2003, the utility companies resumed responsibility for purchasing power from the spot market. The utilities, however, continue to receive power from the Department's long-term energy contracts with energy suppliers, under which the Department retains legal and financial responsibility. Additionally, the Department retains the legal and financial responsibility for administering \$11.25 billion in revenue bonds issued to repay the General Fund for money borrowed and power purchased during the energy crisis and funding of reserve accounts necessary to maintain an investment grade credit rating associated with the revenue bonds.

### INFRASTRUCTURE OVERVIEW

The Department of Water Resources has two major infrastructure programs: the State Water Project and the flood control system in the Central Valley. The State Water Project is a water storage and delivery system that consists of 28 dams and reservoirs, 22 pumping plants, 3 pumping-generating plants, 5 hydroelectric power plants, and more than 660 miles of canals and pipelines. The Project provides water to 23 million Californians and 755,000 acres of irrigated farmland. Existing flood control infrastructure in the Central Valley consists of 1,595 miles of levees, 348,000 acres of channels and floodways, nearly 800,000 linear feet of bank protection, and 55 various flood control structures. In general, these facilities provide more flood protection in urbanized areas and less in agricultural areas.

### MAJOR PROJECT CHANGES

- The Budget provides \$126.5 million Proposition 1E for Systemwide Levee Evaluations and Repairs to help ensure weak portions of levees in the Central Valley are identified and repaired.
- The Budget provides \$9.5 million Proposition 1E and \$3.5 million in local reimbursements for the following five flood control projects in the Central Valley: (1) West Sacramento Project, (2) Mid-Valley Levee Reconstruction Project, (3) South Sacramento County Streams, (4) Merced County Streams Project, Bear Creek Unit, and (5) Sutter Bypass East Water Control Structures.
