

# **Environmental Protection**

---

California Environmental Protection Agency programs restore and protect environmental quality, and protect public health. The Secretary coordinates the state's environmental regulatory programs and ensures fair and consistent enforcement of environmental law, which safeguards the state's residents and promotes the state's economic vitality.

### 3900 Air Resources Board

The Air Resources Board has primary responsibility for protecting air quality in California. This responsibility includes establishing ambient air quality standards for specific pollutants, administering air pollution research studies, evaluating standards adopted by the U.S. Environmental Protection Agency and developing and implementing plans to attain and maintain these standards. These plans include emission limitations for vehicular and industrial sources established by the Board and local air pollution control districts. The Air Resources Board also has the responsibility, in coordination with the Secretary for Environmental Protection, to develop measures to reduce greenhouse gas emissions to 1990 levels by 2020, pursuant to Chapter 488, Statutes of 2006 (AB 32).

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Air Resources Board's Capital Outlay Program see "Infrastructure Overview."

#### 3-YR EXPENDITURES AND POSITIONS (Summary of Program Requirements)

	Positions			Expenditures		
	2006-07	2007-08	2008-09	2006-07*	2007-08*	2008-09*
15 Mobile Source	645.5	761.5	831.7	\$259,785	\$693,511	\$512,052

Health and Safety Code Sections 38500 et seq. and 39000 et seq.

35-Subvention:

Health and Safety Code Section 39800 et seq.

#### MAJOR PROGRAM CHANGES

- Regulatory Enforcement - The Budget includes \$8.5 million Motor Vehicle Account and 44.1 positions for implementation and enforcement efforts related to controlling toxic diesel particulates. These regulations include those related to in-use off-road diesel vehicles, truck idling restrictions, composite wood formaldehyde emissions, and diesel auxiliary engines for port and ocean-going vessels.

\* Dollars in thousands, except in Salary Range.

### 3900 Air Resources Board - Continued

- Ongoing Implementation of the Global Warming Solutions Act of 2006 (AB 32) - The Budget includes \$5.6 million Air Pollution Control Fund and 25.8 positions for additional staff and resources to continue implementation of strategies to reduce greenhouse gas emissions. These resources include 24.0 positions to accelerate the development of additional early action measures, both regulatory and non-regulatory, to reduce greenhouse gas emissions, primarily from the trucking and port industries, cement, semi-conductor, and consumer product industries.
- Zero Emission Vehicles and Infrastructure - The Budget includes \$6 million in one-time Motor Vehicle Account funding to continue implementation of the Zero Emission Vehicle Regulations. These funds will help California move toward its goals of reducing greenhouse gas, criteria pollutant and toxic air emissions, reduce the state's dependence on petroleum, and continue the state's efforts to increase the use of renewable fuels. These funds also will continue implementation of the California Hydrogen Highway Plan by providing grants to establish hydrogen refueling stations.
- Air Quality Improvement - The Budget includes \$1.7 million Air Quality Improvement Fund and 9.6 positions (eight permanent and two three-year limited term) to develop and implement the Air Quality Improvement Program and Enhanced Fleet Modernization Program components of the new programs authorized by Chapter 750, Statutes of 2007 (AB 118). This proposal also includes expenditure authority beginning in the 2009-10 fiscal year of an additional \$48.3 million Air Quality Improvement Fund annually to provide authority for grants to be allocated beginning in 2009-10.

#### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$100,000 in 2007-08 and \$243,000 in 2008-09.

The major balancing reductions include:

- 2008-09

Reduce \$243,000 for support of air pollution research contracts. This decrease will result in a minor reduction to the number and scope of research contracts that ARB will award.

## PROGRAM DESCRIPTIONS (Program Objectives Statement)

## 15 - MOBILE SOURCE

The Mobile Source Program works to improve air quality by reducing emissions from internal combustion engines as follows:

- Develop, implement and enforce laws and regulations limiting emissions from new and in-use vehicles and assess the effectiveness of established procedures.
- Develop testing and evaluation procedures for vehicles, engines, emission control components, fuel additives and test equipment to ensure that emission standards are met.
- Conduct information and training seminars for vehicle dealers, mechanics, inspectors and members of the public on vehicle emissions and resulting air pollution.
- Develop measures for reducing greenhouse gas emissions from mobile and other sources as required by the California Global Warming Solutions Act of 2006.

## 25 - STATIONARY SOURCE

The Stationary Source Program works with air pollution control districts and the business and scientific communities to reduce emissions from stationary sources to comply with state and federal laws as follows:

- Develop measures for reducing emissions from stationary and other sources as required by the California Clean Air Act and work with local air pollution control districts to achieve and maintain state and federal ambient air quality standards.
- Identify substances that are toxic air contaminants and develop measures to control their emissions.
- Assist industries wishing to locate or expand in California and provide comments to lead agencies and districts on applications for permits to construct or modify facilities that are major sources of air pollution.
- Develop measures for reducing greenhouse gas emissions from stationary and other sources as required by the California Global Warming Solutions Act of 2006.

## 35 - SUBVENTION

The Air Resources Board provides subventions to local air pollution control districts in order to encourage and provide support for effective district programs. The state's 35 local air pollution control districts have the primary responsibility for controlling stationary sources of air pollution in California.

#### INFRASTRUCTURE OVERVIEW

The Air Resources Board has a headquarters location and several specialized field offices including motor vehicle testing and analysis laboratories and 48 air monitoring sites. The air monitoring sites are leased from public or private entities and consist of mainly air monitoring equipment. Many of these air monitoring sites are located on building rooftops, in small areas within buildings, or in a field.

### 3910 California Integrated Waste Management Board

The California Integrated Waste Management Board protects public health and safety and the environment through the regulation of solid waste facilities, including landfills. The Board promotes the following waste management practices: (1) source reduction, (2) recycling and composting, (3) reuse, and (4) environmentally safe transformation and land disposal. Additional Board activities include research, permitting, inspection, enforcement, public awareness, market development to promote recycling industries, and technical assistance to local agencies in the development of local integrated waste management plans.

##### DEPARTMENT AUTHORITY

Health and Safety Code Section 4500, Public Resources Code Section 40000 et seq., Public Resources Code Section 48020 et seq., and Public Resources Code Section 42860 et seq.

#### MAJOR PROGRAM CHANGES

- California Education and the Environment Initiative: The Governor's Budget includes \$1.2 million and 0.9 positions on a one-time basis from the California Beverage Container Recycling Fund to implement the California Education and the Environment Initiative. The California Integrated Waste Management Board will assist in the development of the curriculum to increase positive recycling behaviors by targeting kindergarten through 12th grade students. Students will learn how their personal consumption and recycling choices affect the environment.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 11 - WASTE REDUCTION AND MANAGEMENT

The objectives of the Waste Reduction and Management Program include:

- Ensuring that all nonhazardous solid wastes are stored, collected, processed, and disposed of in a safe and environmentally sound manner.
- Participating in the development and maintenance of local solid waste management plans, which describe how each city and county will reduce the amount of solid waste disposed to achieve a 50 percent diversion of waste from landfills.
- Cleaning up solid waste disposal sites for which the responsible party either cannot be identified or is unable or unwilling to pay for timely remediation, and where cleanup is needed to protect health and safety or the environment.
- Reducing the amount of waste generated and promoting composting, recycling, and the use of recycled materials in manufacturing processes.
- Reducing the number of used tires that are placed in landfills or illegally dumped or stockpiled and promoting technologies that turn waste tires into useful products.
- Reducing the amount of improperly disposed used oil and promoting used oil recycling.
- Reducing electronic waste by providing for the safe and convenient collection and recycling of specified electronic equipment.
- Assisting schools by incorporating environmental concepts into the California State Science Framework and establishing an integrated systems model to incorporate resource conservation and sustainability into educational materials.

### 3930 Department of Pesticide Regulation

The Department of Pesticide Regulation protects public health and the environment by regulating all aspects of the sale and use of pesticides and by promoting reduced-risk pest management strategies. The Department ensures compliance with pesticide laws and regulations through its oversight of County Agricultural Commissioners, who enforce pesticide laws at the local level.

#### LEGAL CITATIONS AND AUTHORITY

##### PROGRAM AUTHORITY

10-Pesticide Programs:

Food and Agricultural Code, Divisions 2, 6 and 7.

#### MAJOR PROGRAM CHANGES

- Volatile Organic Compound Reduction - The Budget includes 10.4 positions and \$2,622,000 (\$1,332,000 State Operations and \$1,290,000 Local Assistance) from the Department of Pesticide Regulation Fund to implement regulations that reduce volatile organic compound (VOC) emissions from pesticides to attain national air quality standards in California. The Department of Pesticide Regulation has been ordered by the U.S. District Court to issue regulations to reduce VOC emissions. The regulations will reduce VOC emissions by prohibiting high emissions application methods and by managing overall fumigant emissions through an allowance process.

**PROGRAM DESCRIPTIONS (Program Objectives Statement)**

## 10 - PESTICIDE PROGRAMS

This program protects California residents and the environment from adverse pesticide impacts with particular emphasis on the protection of children, vulnerable populations and communities. Specific activities are to:

- Evaluate whether to register pesticide products for sale or use in California.
- Assess the human health risks from pesticides.
- Administer licensing and certification of pest control applicators, businesses, dealers and advisors.
- Collect and evaluate trends of pesticide use.
- Monitor pesticide residues in fresh produce, air, ground and surface water, and occupational settings.
- Mitigate human health and environmental hazards from pesticides.
- Oversee local enforcement of pesticide laws and regulations by the County Agricultural Commissioners.
- Prevent the sale and distribution of unregistered pesticide products and ensure compliance with mill assessment responsibilities.
- Promote the implementation of reduced risk pest management policies.

The consolidated Program 10 structure was implemented, beginning in the 2006-07 fiscal year, to enhance the Department's service delivery capabilities, optimize staffing and reduce administrative complexities.

## 20 - ADMINISTRATION

This program includes executive management, budgeting, accounting, human resources, information technology, legislation, and external affairs personnel.

**3940 State Water Resources Control Board**

The State Water Resources Control Board (State Board) and the nine Regional Water Quality Control Boards (Regional Boards) preserve and enhance the quality of California's water resources and ensure proper allocation and effective use. These objectives are achieved through the Water Quality and Water Rights programs.

Funding provided by the State Water Quality Control Fund and the Federal Trust Fund offsets State operations expenditures for the State Water Pollution Control Revolving Fund.

Loan repayments from public agencies as well as funding provided by the State Water Pollution Control Revolving Fund and the Federal Trust Fund offset local assistance expenditures for the State Water Pollution Control Revolving Fund.

#### LEGAL CITATIONS AND AUTHORITY

##### PROGRAM AUTHORITY

10-Water Quality:

California Water Code Section 13000 et seq., and powers delegated to the state by federal water pollution control legislation.

20-Water Rights:

\* Dollars in thousands, except in Salary Range.

## 3940 State Water Resources Control Board - Continued

Division 2 of the California Water Code and Title 23 of the California Administrative Code.

### MAJOR PROGRAM CHANGES

- Investigation, Enforcement and Fraud - The Governor's Budget includes \$1.3 million and 8.5 positions for investigations and enforcement of water quality requirements and to address fraudulent reporting and failure to report by wastewater and stormwater dischargers. The State Water Resources Control Board will establish dedicated units of investigators and enforcement personnel to consistently and equitably enforce water laws and regulations.
- Plastic Discharges - The Governor's Budget includes \$1 million and 8.5 positions to implement the Preproduction Plastic Debris Program pursuant to Chapter 735, Statutes of 2007 (AB 258). The State Water Board, in consultation with the Regional Water Boards, will develop methods to control the discharge of plastic pellets from point and nonpoint sources. These sources include all plastic manufacturing, handling, and transportation facilities.
- Recycled Water Permitting - The Governor's Budget includes \$850,000 and 1.9 positions to develop a general permit for the use of recycled water pursuant to Chapter 535, Statutes of 2007 (AB 1481). Streamlining the permitting process for landscape irrigation will promote the safe use of recycled water and augment California's available water supply.
- Storm Water Program Guidelines - The Governor's Budget includes \$590,000 and 0.9 positions to implement guidelines for municipal stormwater programs pursuant to Chapter 610, Statutes of 2007 (AB 739). The Board will develop a comprehensive guidance document for assessing the effectiveness of municipal stormwater management programs. Municipalities will use this information when establishing requirements in municipal stormwater programs and for evaluating and reporting program effectiveness.

### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$4.3 million and 12.0 positions in 2008-09.

The major budget balancing reductions include:

- 2008-09

Reduce \$3.7 million and 10.0 positions from the Water Quality Program, and \$400,000 and 2.0 positions from the Water Rights Program. These reductions will result in delays to the Board's capacity to issue permits, conduct enforcement activities, and develop Total Maximum Daily Load action plans to restore clean water.

#### PROGRAM DESCRIPTIONS (Program Objectives Statement)

##### 10 - WATER QUALITY

This program ensures the highest possible quality of water for the state. Specific activities are to:

- Formulate, adopt and update water quality control plans and policies that set standards and provide guidance in water management decisions.
- Monitor water quality to determine compliance with control plans, permit terms, conditions and water standards; implement the Total Maximum Daily Loads program to address pollution in the state's most seriously impaired water bodies by developing plans that allocate responsibility for reducing pollution.
- Ensure that the waters of the state are not degraded by hazardous waste spills or tank leaks, or by spills or tank leaks from solid and hazardous waste treatment, storage, and disposal facilities.
- Require waste dischargers, including storm water dischargers, to prevent and abate water pollution and inspect dischargers to determine compliance with requirements.
- Assist owners and operators of underground tanks in financing the cleanup of unauthorized releases from their tanks.

##### 20 - WATER RIGHTS

This program ensures that California's water resources are put to beneficial use, while protecting prior rights, water quality and the environment. Specific activities are to:

- Allocate the unappropriated waters of the state to ensure the use of water in accordance with state laws.
- Maintain a record of title of appropriative water rights initiated and maintained since 1914, including those for stockponds, livestock and small domestic use ponds.
- Maintain records of water diversion and use under riparian and pre-1914 rights, stockpond water rights, groundwater extractions in four southern counties, and cessation of, or reduction in, extractions of groundwater by use of water from a contributory source.
- Enforce permit and license terms and conditions, abate illegal diversions, protect public trust resources, and prevent waste or unreasonable use under all rights.
- Assist the courts in determining existing rights to surface water throughout the state through court reference and statutory adjudication proceedings, and in determining rights to groundwater through the groundwater adjudication process.

##### 30 - ADMINISTRATION

This program includes management, program and policy direction, budgeting, accounting, human resources, data processing, legislation and public information for the department's programs, and coordination with the nine Regional Water Quality Control Boards.

\* Dollars in thousands, except in Salary Range.

## 3960 Department of Toxic Substances Control

The Department of Toxic Substances Control protects public health and the environment by: (a) regulating hazardous waste management activities, (b) overseeing and performing cleanup activities at sites contaminated with hazardous substances, (c) encouraging pollution prevention and the development of environmentally protective technologies, and (d) providing regulatory assistance and public education.

Since department programs drive the need for infrastructure investment, each department has a related capital outlay program to support this need. For the specifics on the Department of Toxic Substances Control's Capital Outlay Program see "Infrastructure Overview."

### LEGAL CITATIONS AND AUTHORITY

#### PROGRAM AUTHORITY

12-Site Mitigation And Brownfields Reuse:

Health and Safety Code Section 25300 et seq.

13-Hazardous Waste Management:

Health and Safety Code Section 25100 et seq.

20-Science, Pollution Prevention and Technology:

Health and Safety Code Section 25244 et seq.

21-State as Certified Unified Program Agency:

Health and Safety Code Section 25404 et seq.

### MAJOR PROGRAM CHANGES

- Green Chemistry and Pollution Prevention: The Budget includes \$772,000 and 5.7 positions to expand the existing Pollution Prevention program. Expansion of the program will focus on product design and industrial innovation that reduces the use of harmful chemicals in products and generates fewer emissions and less waste.
- BKK Facility Investigation and Field Oversight: The Budget includes \$547,000 and 1.9 positions to oversee and manage ongoing maintenance and remediation activities at the BKK landfill site. Funds will be used to provide daily oversight and complete an assessment leading to clean up design and construction solutions.
- Lighting Efficiency and Toxic Reduction - The Budget includes \$433,000 and 2.9 positions to implement and enforce the California Lighting Efficiency and Toxics Reduction Act pursuant to Chapter 534, Statutes of 2007 (AB 1109). The Department of Toxic Substances Control will enforce the prohibition of the sale of lighting products that contain hazardous substances and, in coordination with the Integrated Waste Management Board, develop methods for collecting and recycling end-of-life light bulbs.

### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$1.3 million in 2007-08 and \$2.6 million in 2008-09.

The major balancing reductions include:

- 2008-09

Reduce \$2.3 million for illegal drug lab removal activities. This reduction will decrease the annual number of drug lab cleanups performed by the state resulting in potential increased costs or obligations for local governments to conduct the removals.

\* Dollars in thousands, except in Salary Range.

### PROGRAM DESCRIPTIONS (Program Objectives Statement)

#### 12 - SITE MITIGATION AND BROWNFIELDS REUSE

This program implements the state's site cleanup laws and the federal Superfund program. The program currently oversees approximately 1,000 hazardous substances release site investigations and cleanups, and monitors long-term operations and maintenance activities at approximately 200 sites where the cleanup process has been completed. Additionally, DTSC is responsible for ensuring compliance with the terms of the 387 land use restrictions now in place on properties throughout the state. New sites are identified through surveillance and enforcement efforts, through emergency response activities, by examination of other previously identified potential sites, and voluntarily by public and private entities that request departmental oversight in order to return the properties to productive use. These sites and projects include the cleanup of federal and state superfund properties, abandoned mines, and other abandoned and underutilized properties known as "brownfields," and open and closed military installations. The program is responsible for overseeing environmental assessments and cleanups at proposed new or expanding school sites to prevent or reduce potential exposure of students and staff to hazardous materials. The program also is responsible for the Stringfellow Hazardous Waste Site, a former hazardous waste disposal site and federal Superfund Site. The program works with the Office of Emergency Services, the Office of Homeland Security, and other State agencies to assure that the State is ready to respond to acts of terrorism involving the use of toxic chemicals. This program also continues to work closely with other State agencies, the United States Environmental Protection Agency, and local agencies throughout the state to establish and implement viable grant and loan programs to aid in assessment and cleanup of brownfield sites.

#### 13 - HAZARDOUS WASTE MANAGEMENT

This program regulates the generation, storage, transportation, treatment and disposal of hazardous waste to minimize risks to public health and the environment. The program oversees 126 permitted facilities which manage hazardous waste, approximately 930 registered businesses which transport hazardous waste, over 620 facilities/generators subject to corrective action, and over \$1.8 billion in financial assurance. This program monitors hazardous waste transfer, storage, treatment and disposal facilities for illegal activity; including electronic manifest surveillance and monitoring of registered hazardous waste haulers; and takes appropriate enforcement action against hazardous waste handlers that violate hazardous waste requirements found through routine inspections, complaint investigations, and focused enforcement initiatives. This program also ensures compliance with hazardous waste requirements related to electronic waste fraud and certain consumer products including lead in jewelry and toxic substances in packaging.

#### 19 - ADMINISTRATION

\* Dollars in thousands, except in Salary Range.

## 3960 Department of Toxic Substances Control - Continued

This program provides accounting, budgeting, revenue collection, human resource and workforce management, data processing, performance management, business services, and other administrative support to the Department's programs. The Program also supports operations in Sacramento, Clovis, Berkeley, Chatsworth, Cypress, San Diego and Calexico including two environmental chemistry laboratories located in Northern and Southern California.

### 20 - SCIENCE, POLLUTION PREVENTION AND TECHNOLOGY

This program provides scientific leadership in the areas of green chemistry, pollution prevention, and hazardous waste source reduction; analytical and environmental chemistry; biomonitoring; human and ecological exposure and risk assessment; industrial hygiene and workplace safety; innovative environmental technologies development; and nanotechnology issue.

These ongoing activities not only provide the scientific basis for informed regulatory, enforcement, and site clean-up decision-making, but also support governments, businesses, the universities and the public in (1) the early detection of toxic substances via biomonitoring and product monitoring, (2) the statewide reduction in the use of toxic substances and the use of safer green chemistry alternatives, (3) the encouragement of independent research on green chemistry alternatives, (4) adoption of pollution prevention strategies, (5) the evaluation and deployment of new environmental technologies, and (6) the development of California of strategies for emerging issues, such as nanomaterials.

### 21 - STATE AS CERTIFIED UNIFIED PROGRAM AGENCY

The California Environmental Protection Agency has designated the Department of Toxic Substances Control as the Certified Unified Program Agency (CUPA) in Trinity and Imperial Counties. As the CUPA, DTSC is responsible for implementing the six elements of the Unified Program: hazardous waste generator and onsite treatment activities, spill prevention control and countermeasure plans for owners of aboveground petroleum storage tanks, underground storage tank program, hazardous material release response plans and inventories, California Accidental Release Prevention program, and certain Uniform Fire Code requirements pertaining to hazardous material management plans and inventories.

## INFRASTRUCTURE OVERVIEW

The Department of Toxic Substances Control leases nine facilities throughout California. These facilities include space for offices, specialized fieldwork, sample and field equipment storage, two environmental chemistry laboratories, and an information center for the Stringfellow Superfund site. These facilities comprise a total of approximately 385,000 square feet located in Sacramento, Clovis, Berkeley, Glendale, Los Angeles, Glen Avon, Cypress, San Diego, and Calexico.

## 3980 Office of Environmental Health Hazard Assessment

The Office of Environmental Health Hazard Assessment protects and enhances public health and the environment through objective scientific evaluation of risks posed by hazardous substances. The Office performs risk assessments for various regulatory programs under the California Environmental Protection Agency, as well as other state and local agencies, and provides these programs with the scientific tools and information upon which to base risk management decisions. Distinct programs focus on assessing health risks, including risks to children and other sensitive subpopulations, from exposure to chemicals in air, water, food, consumer products, hazardous and municipal waste facilities, fish and shellfish, and sediments in bay and estuarine waters.

### BUDGET-BALANCING REDUCTIONS

- The Budget includes General Fund reductions of \$100,000 in 2007-08 and \$956,000 and 4.5 positions in 2008-09.

The major balancing reductions include:

- 2008-09

Reduce \$777,000 and 4.5 positions from the Health Risk Assessment Program. This reduction will decrease resources available for scientific evaluations of the effects of fuels on human health and the state's environment, and will reduce the number of air toxic contaminant evaluations that OEHA can perform annually. The reduction will also decrease the Office's capacity to establish public health goals for drinking water.

**PROGRAM DESCRIPTIONS (Program Objectives Statement)**

## 10 - HEALTH RISK ASSESSMENT

This program provides tools that form the basis for a scientific approach to assessing both health and environmental risks across all environmental exposure sources. The program identifies chemicals with the potential to cause adverse health effects, quantifies risks and recommends health-based goals and standards, develops scientific policies and guidelines for hazard identification and risk assessment, and provides medical, scientific, and public health support, consultation, and training to state regulators, local governmental agencies, and the public. Particular attention is paid to protecting the health of infants and children.
