

8660 Public Utilities Commission

The California Public Utilities Commission (PUC) regulates privately-owned electric, natural gas, telecommunications, water, railroad, rail transit, and passenger transportation companies, in addition to authorizing cable and video franchises. The PUC empowers California in the areas of telecommunications and utilities through assuring services are reliable, clean, and safe; providing for critical services and infrastructure; designing rates that are fair and reasonable; and protecting the interests of consumers and ratepayers.

PROGRAM DESCRIPTIONS

6680 - REGULATION OF UTILITIES

Californians spend more than \$50 billion annually for services from industries regulated by the PUC. This includes 6 electricity utilities, 1,012 telecommunications carriers, 120 water and sewer utilities, 5 natural gas utilities with approximately 10.8 million customers, 4 gas facility owners, and more than 3,155 small mobile home park and propane operators.

The PUC oversees the safety of electric, communications, natural gas, and propane gas utility systems. Safety functions include both backward-looking investigations and analysis of safety incidents and utility performance, and forward-looking risk analytics to mitigate emerging threats and identify necessary regulatory rule reform. The PUC performs operation and maintenance audits, outage inspections, mitigation reviews, and investigations of incidents at electric generation facilities and coordinates closely with state public safety agencies to further resilience initiatives. The PUC’s safety oversight includes enforcing public utility wildfire safety and Public Safety Power Shutoffs (PSPS) violations. It functions as the lead investigator for utility incidents relating to wildfire events and recommends policy to strengthen PSPS guidelines. In addition to the PUC opening formal investigations, the PUC imposes fines for natural gas, electric infrastructure, and wildfire safety-related violations.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

8660 Public Utilities Commission - Continued

The PUC conducts reviews of utility operations every four years to determine just and reasonable rates for energy services. The PUC provides guidelines for investor-owned utilities—and to a lesser extent, as directed by statute, an increasing number of Community Choice Aggregators, Energy Service Providers, and Core Transport Agents—to follow when purchasing electricity and natural gas on behalf of their customers to ensure that sufficient amounts of electricity are procured when and where needed in the state.

Environmental protection and the impact of climate change are critical factors in PUC regulation. The PUC is charged with implementing and overseeing key components of Chapter 547, Statutes of 2015 (SB 350); Chapter 312, Statutes of 2018 (SB 100); and other climate change legislation, including promoting ratepayer-funded energy efficiency programs, Integrated Resource Planning, the state's mandated renewable energy programs, programs for disadvantaged communities, electric vehicle programs, and other clean energy programs.

The PUC oversees programs and regulations to promote both natural gas and electricity reliability and resilience.

The PUC establishes requirements for energy programs for low-income ratepayers, including programs providing rate discounts, financial assistance with energy bills, and the Energy Savings Assistance Program, which provides no-cost weatherization services to customers who meet low-income eligibility criteria.

The PUC conducts and manages environmental reviews pursuant to the California Environmental Quality Act for transmission, telecommunications, and other infrastructure projects.

The PUC develops and implements policies for the rapidly changing communications and broadband markets, including monitoring competitive markets for proper operation, enforcing carrier service standards for telecommunication services, regulating rural telecommunication rates, protecting consumers against carrier abuses and fraud by applying licensing requirements and rules for offering and terminating telecommunication services, and managing efficient deployment of area codes and telephone numbers.

The PUC is responsible for ensuring that California's investor-owned water utilities deliver clean, safe, and reliable water to their customers at reasonable rates. The PUC's water utility work includes investigating water and sewer service quality, promoting water conservation and metering, improving low-income programs, analyzing and processing rate change requests, and tracking and certifying compliance with PUC requirements.

The Public Advisor's Office provides procedural information, advice, and assistance to individuals and groups interested in participating in PUC proceedings and advises the Commission on procedural matters related to public participation in proceedings.

The Consumer Affairs Branch (CAB) responds to questions regarding utility service and bills and assists consumers who have unresolved disputes with regulated utilities through an informal process. CAB also provides data on the consumer protection issues it handles to stakeholders and decision makers to inform policy making. A Supplier Diversity program promotes and monitors supplier diversity in procurement by utilities and oversees a certification clearinghouse.

6685 - UNIVERSAL SERVICE TELECOMMUNICATIONS PROGRAMS

The PUC oversees telecommunication-based universal service programs (Universal Lifeline Telephone Service Trust Fund, California Teleconnect Fund, Deaf and Disabled Telecommunications Program, California Advanced Services Fund, and two California High Cost Funds), all of which provide needed services to consumers and communities. The objectives of these "universal service" programs include: (1) ensuring basic telephone service is available to all Californians; (2) improving access to broadband technology to bridge the digital divide; and (3) ensuring consumers have access to sufficient information to make informed choices about basic service and universal lifeline telephone services.

The California LifeLine Program provides discounted basic residential wireless and wireline telephone service to qualified low-income households. The California Teleconnect Fund Program provides discounted telecommunication services to qualifying schools, libraries, hospitals, and community-based organizations. The Deaf and Disabled Telecommunications Program primarily provides equipment and telephone access services to people with hearing and other disabilities. The California Advanced Services Fund Program mainly encourages the deployment of broadband infrastructure in unserved and underserved rural and urban areas of California. The California High Cost Fund Programs provide subsidies to carriers obligated to provide telephone service to customers residing in rural and high-cost areas.

6690 - REGULATION OF TRANSPORTATION

The PUC oversees the safety of railroads, rail transit systems, rail crossings, and other forms of motor conveyance in California. All railroads, seven major rail transit agencies, six smaller transit systems, and more than 13,500 public and private crossings are subject to PUC regulation and inspection. For traditional heavy rail, the PUC's specially trained and federally-certified inspectors inspect all tracks (annually), all train equipment and facilities (thrice annually), and all signals and appurtenances; investigate all rail accidents resulting in loss of life and property damage; and ensure safe transport of hazardous materials by rail.

For rail transit systems, PUC inspectors and engineers conduct safety inspections of track, vehicles, signals and train control, and operations, as well as overall agency triennial safety audits. The PUC also has exclusive authority to approve or

8660 Public Utilities Commission - Continued

disapprove all highway-rail crossings of railroad or rail transit tracks, as well as crossing safety treatments deployed at each crossing. Additionally, the PUC jointly (with Caltrans) administers the state's annual allocation of federal funds for crossing hazard elimination projects and the state's grade separation program, which assists localities with the high cost of grade-separating highway/rail crossings.

The transportation program also oversees passenger carriers, including privately-owned for-hire passenger transportation companies (e.g., limousines, airport shuttles, transportation network companies, and charter and scheduled bus operators) and privately-owned water ferries. The program regulates rates and services, issues certificates and other licenses, enforces safety standards and insurance requirements, and protects consumers from for-hire passenger carriers operating illegally.

6695 - PUBLIC ADVOCATE'S OFFICE

The mandate and function of the Public Advocate's Office is defined in Public Utilities Code Section 309.5. The Public Advocate's Office is charged with representing and advocating on behalf of public utility customers and subscribers in all significant proceedings within the PUC's jurisdiction.

Chapter 856, Statutes of 1996 (SB 960), codified the Public Advocate's Office with a director appointed by and serving at the pleasure of the Governor and charged the Public Advocate's Office with representing ratepayer interests in PUC proceedings. Chapter 1005, Statutes of 1999 (AB 1658), directed funds from the Public Utilities Commission Utilities Reimbursement Account to be transferred in the annual budget act to the Public Utilities Commission Public Advocate's Office Account. The law further required that "funds in the Public Utilities Commission Public Advocate's Office Account shall be utilized exclusively by the division in the performance of its duties as determined by the director" of the Public Advocates Office.

Chapter 440, Statutes of 2001 (SB 201), removed the limitation that the Public Advocate's Office only represent ratepayers in PUC proceedings. SB 201 extended the Public Advocate's Office representation to other venues such as, but not limited to, the Energy Commission, Air Resources Board, California Independent System Operator, and legislative hearings.
