

Natural Resources

Natural Resources Agency programs protect and restore California's diverse natural and cultural resources for current and future generations, including operating state parks, managing water supplies, supporting forest health, encouraging clean energy, and preserving fish and wildlife habitats, rich farmlands and mineral resources. Agency programs also protect the public through construction and maintenance of levees in the Central Valley and suppression of wildfires. These programs not only contribute to the state's unique quality of life, but also are critical to sustaining a vibrant economy.

3100 Exposition Park

The Office of Exposition Park Management, the Science Center, and the California African American Museum (CAAM), are located in Exposition Park, a 152-acre tract in south Los Angeles, which is owned by the state. For budget purposes, these three departments are collectively known as Exposition Park.

The Office of Exposition Park Management provides long-term leadership in the development and implementation of park usage policy and day-to-day management, operation and promotion of the park for its tenants and the public. The mission of the Science Center is to stimulate curiosity and inspire science learning. The mission of CAAM is to research, collect, preserve, and interpret, for public enrichment, the history, art, and culture of African Americans with an emphasis on California and the western United States.

Because the Science Center's programs drive a need for infrastructure investment, the Science Center has a capital outlay program to support this need. For the specifics on the Science Center's capital outlay program see "Infrastructure Overview."

PROGRAM DESCRIPTIONS**2300 - CALIFORNIA SCIENCE CENTER**

Attracting over 2 million guests annually, the California Science Center represents one of California's premier educational and family destinations. Governed by a nine-member Board of Directors appointed by the Governor, the Science Center develops and features award-winning exhibits and internationally renowned education programs.

Hands-on educational exhibits and programs focus on science, math, technology, and conservation which explore biological processes of humans, animals, plants, the Earth's ecosystems, habitats, and geophysical processes, as well as engineering, communications, and transportation, on land and in space. Construction for the Science Center's Air and Space Center, the permanent home for the Space Shuttle Endeavour, began in March 2022 and is expected to be completed in summer 2025.

In addition, the Science Center operates a 3D IMAX theater which features science related films and documentaries. The Center for Science Learning offers professional development programs to improve math and science skills of teachers and other educators. The Science Center School is a K-5 science, math and technology focused neighborhood charter school. As a Title I school, it serves one of the more underserved and economically challenged communities in South Los Angeles. The school's instructional programs and teacher training meet California science standards.

The Science Center's mission values accessibility and inclusiveness and strives to inspire interest in science among those traditionally underrepresented in science, math, technology and engineering. The Science Center receives significant funding support for exhibit development, educational programs, and capital outlay projects from the California Science Center Foundation.

2305 - EXPOSITION PARK MANAGEMENT

The Office of Exposition Park Management (OEPM) is responsible for public safety operations, parking services management and overall park beautification maintenance. In addition, OEPM administers supervision and coordination of park-wide events, and facilitates communication efforts between state, city, county, and private entities represented within the park. OEPM is responsible for the negotiations of ground leases and agreements which impact the state's interest, including development of park facilities and future infrastructure improvements. OEPM is also responsible for managing the Exposition Park Improvement Fund and generating revenue to maintain the park. Exposition Park enriches the internal park community and in addition provides green space and recreational areas for the surrounding neighborhood.

2310 - CALIFORNIA AFRICAN AMERICAN MUSEUM

The California African American Museum (CAAM) is governed by a seven-member board of directors appointed by the Governor. CAAM's mission is to research, collect, preserve, and interpret, for public enrichment, the history, art, and culture of African Americans with an emphasis on California and the western United States. Founded in 1977, as the first African American museum of art, history, and culture fully supported by a state, CAAM was the direct result of a sustained, multiyear campaign of activism undertaken by visionary founders and community members. CAAM occupies a 44,000-square-foot facility in Exposition Park, which includes 15,000 square feet of gallery space and an additional 13,000 square feet of space for public programming. The museum's permanent collection houses 4,000 objects that span paintings, photographs, film, sculpture, historical documents, and artifacts. CAAM has a strong mandate to support the work of under-represented artists of color and to think expansively about the way that people of the African diaspora have contributed to American culture and the world at large. That is achieved through a rotating exhibition schedule and public programming for visitors of all ages. More than forty

3100 Exposition Park - Continued

years after its founding, the originating principle for CAAM remains vital to a healthy and just America—to create and support an inclusive, accessible, and dynamic space where all people can see Black lives, culture, and experiences valued and reflected.

INFRASTRUCTURE OVERVIEW

The Office of Exposition Park Management oversees Exposition Park, a 152-acre state property and urban park in Los Angeles that is home to some of California's most iconic sports, entertainment, cultural, educational, science, artistic, and historical landmarks. The property also includes green, open spaces including the South Lawn; Expo Lawn; Christmas Tree Lane; Jesse Brewer Jr. Park; Soboroff Playfield; and on-site infrastructure including parking structures and state facilities.

The California Science Center, an entity within Exposition Park, manages and leases property, in coordination with the Exposition Park Manager, that includes the Samuel Oschin Space Shuttle Endeavor Display Pavilion; the 3D IMAX Theater; the Dr. Theodore T. Alexander, Jr. Science Center School; the Wallis Annenberg Building; Phase I, Phase II and Phase III of the California Science Center.

PROGRAM DESCRIPTIONS

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

3110 Special Resources Programs - Continued

2320 - TAHOE REGIONAL PLANNING AGENCY

A congressionally approved compact between California and Nevada established the Tahoe Regional Planning Agency. The Agency coordinates planning and regulations that preserve and enhance the environment and resources of the Lake Tahoe Basin. Funding for the Agency is shared between Nevada (one-third) and California (two-thirds).

2325 - YOSEMITE FOUNDATION PROGRAM

This program receives revenue from the sale of personalized motor vehicle license plates by the Department of Motor Vehicles. The funds are allocated by the State Controller's Office for restoration and preservation projects in Yosemite National Park.

2330 - SEA GRANT PROGRAM

The Sea Grant Program encourages research and education in the fields of marine resources and technology. This program provides funding to the University of California and University of Southern California to match federal funds for selected projects under the federal Sea Grant Program.

3125 California Tahoe Conservancy

The California Tahoe Conservancy's mission is to lead California's efforts to restore and enhance the natural and recreational resources of the Lake Tahoe Basin (Basin). The Conservancy achieves its mission by developing and implementing programs that acquire environmentally sensitive land; restoring the thousands of parcels it owns to improve stream environments, wildlife habitats, forest health, and water quality; and providing grants to fund soil erosion prevention, watershed restoration, improve forest health, and reduce wildfire risk on other public lands. The Conservancy balances these activities with programs to improve public access and recreational opportunities in an environmentally sound manner by acquiring lakefront property, constructing pedestrian and bike paths, and building public access facilities.

The Conservancy is also a key implementing agency of the Environmental Improvement Program (EIP), which is intended to restore and protect the Basin's natural resources. The EIP leverages funding from the states of California and Nevada, the Tahoe Regional Planning Agency, the federal government, local governments, and various private entities for projects needed to achieve environmental goals in the Basin. The EIP is updated periodically to include more refined estimates of projects, modifications in the scope of identified projects, and inclusion of new projects.

Because the Conservancy's programs drive a need for infrastructure investment, the Conservancy has a capital outlay program to support this need. For the specifics on the Conservancy's capital outlay program see "Infrastructure Overview."

PROGRAM DESCRIPTIONS

2340 - TAHOE CONSERVANCY

The Conservancy manages nearly 4,700 state-owned properties totaling more than 6,500 acres, including thousands of quarter-acre lots within the Basin's urban areas. These parcels significantly reduce the potential level of development in the Basin, protect water quality, and provide open space and recreational benefits. The Conservancy manages its lands for multiple benefits and inspects each parcel once every two years to monitor forest health and to identify maintenance needs and encroachments. Maintaining healthy forests in urban areas to help protect life and property constitutes another fundamental

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

3125 California Tahoe Conservancy - Continued

role of the Conservancy's land management program. The Conservancy also manages 11 properties with recreational amenities, including six beaches that provide public access to Lake Tahoe.

The Conservancy and its partners are increasingly shifting to large landscape, multi-jurisdictional, multiple-benefit projects to more rapidly and comprehensively achieve restoration goals in the Basin. The Conservancy plans to continue working with a wide variety of partners to restore the health and resilience of the Basin's forests and watersheds, with the aim of also increasing the pace and scale of restoration. This includes improving forest diversity, protecting wildlife, applying beneficial fire, clearing meadows of encroaching trees, reducing streambank erosion, reconnecting floodplains, and treating storm water. This work will enhance the ability of these lands to respond to wildfire, drought, insects, and climate change.

The Conservancy also works closely with local governments to meet its mission by providing grants for acquisitions and site improvements such as building roadside and storm drainage facilities, sediment basins, and bike trails; creating public gathering spaces; and improving public access to the Lake.

2345 - ACQUISITION AND SITE IMPROVEMENT PROJECTS

This program acquires environmentally sensitive lands and provides public access and recreation by enhancing existing facilities and establishing new public access sites along the Lake and in natural areas. The program also preserves a wide variety of habitats supporting endangered, threatened, or rare animal and plant species and restores streams and watersheds such as marshes, meadows, and riparian areas to mitigate development damage and enhance water quality.

In addition, the program is helping to reduce greenhouse gas emissions and achieve environmental benefits by promoting urban in-fill development in the Basin. These efforts include selling, leasing, or exchanging non-environmentally sensitive Conservancy lands and associated development rights to support revitalization efforts consistent with local area plans and town center objectives. Property exchanges and the proceeds from the sale or leasing of property are then used to (1) acquire other environmentally sensitive lands or (2) fund conservation and other projects that support the Conservancy in fulfilling its mission.

† Savings resulting from SEC. 4.05 and/or SEC. 4.12 of the 2024 Budget Act are currently being recorded as an unallocated statewide set-aside. As a result, this department's budgetary displays may reflect overstated expenditures and may also potentially reflect negative fund balances in particular programs and funds. Fiscal year 2023-24 budget display reflects the best available information for use in decision-making for this department and/or these fund(s). Additional review and reconciliation of 2023-24 ending fund balances will occur in the spring to evaluate if a budget adjustment is required.

INFRASTRUCTURE OVERVIEW

The California Tahoe Conservancy manages programs to help protect Lake Tahoe's water quality and conserve wildlife habitat, watershed areas, and public access on the California side of the Lake Tahoe Basin. The Conservancy is a primary implementer of the State of California's responsibilities under the Environmental Improvement Program (EIP) for the Lake Tahoe Basin - a 1997 agreement between California, Nevada, the Tahoe Regional Planning Agency, the federal government, local governments, and various private entities. The EIP is updated periodically to include more refined estimates of projects, modifications in the scope of identified projects, and new projects.

3210 Environmental Protection Program

The California Environmental Protection Program receives revenue from the sale of personalized motor vehicle license plates by the Department of Motor Vehicles. Revenues are deposited in the California Environmental License Plate Fund. Funds expended pursuant to Division 13.5 of the Public Resources Code must have one or more of the following purposes:

- The control and abatement of air pollution, including all phases of research into the sources, dynamics and effects of environmental pollutants.
- The acquisition, preservation, restoration, or any combination thereof, of natural areas or ecological reserves.
- Environmental education, including formal school programs and informal public education programs.
- Protection of nongame species and threatened and endangered plants and animals.
- Protection, enhancement, and restoration of fish and wildlife habitat and related water quality, including review of the potential impact of development activities and land use changes on that habitat.
- The purchase, on an opportunity basis, of real property consisting of sensitive natural areas for the state park system and for local and regional parks.
- Reduction or minimization of the effects of soil erosion and the discharge of sediment into the waters of the Lake Tahoe region, including the restoration of disturbed wetlands and stream environment zones.

The appropriations and expenditures for programs and projects funded from the California Environmental License Plate Fund are contained in the budgets of the various state boards, commissions and departments.

3340 California Conservation Corps - Continued

The California Conservation Corps (CCC) provides young individuals the opportunity to work hard responding to fires, floods and other disasters, restoring California's environment, and installing clean energy and energy conservation measures at public facilities throughout the state. Through their service, the Corpsmembers gain life, work, and academic skills to become strong workers and citizens.

In addition to the CCC, there are also 14 local conservation corps located in metropolitan communities throughout the state that are annually certified by the CCC, and engage young people in conservation, recycling, education, and training activities.

Because the CCC's programs drive a need for infrastructure investment, the CCC has a capital outlay program to support this need. For the specifics on the CCC's capital outlay program see "Infrastructure Overview."

PROGRAM DESCRIPTIONS**2360 - TRAINING AND WORK PROGRAM**

This Program focuses on five areas:

Natural Resource Work: Corpsmembers protect and enhance the state's natural resources through park development, trail construction, tree planting, fire hazard reduction, watershed improvement, wildlife habitat enhancement, removal of non-native vegetation, meadow restoration, energy and water auditing and retrofitting, irrigation system installation, and drought-tolerant and other landscaping.

Disaster Response: Corpsmembers are dispatched to fires, assisting with initial attack, mop-up and logistical support; floods, filling sandbags, reinforcing levees and stabilizing hillsides; earthquakes, removing hazards and staffing disaster assistance centers; oil spill clean-up; snow removal; search and rescue operations; pest infestation eradication; and homeland security assistance.

Corpsmember Education: Corpsmembers are provided opportunities to advance their academic skills while in the CCC through local adult and charter schools and community colleges.

Corpsmember Development and Training: The CCC stresses the development of both a work and service ethic, which includes teamwork, self-discipline, leadership, and giving back to California. Corpsmembers learn conservation principles and career planning. The CCC also offers training in trail building, first aid, Hazardous Waste Operations and Emergency Response, and firefighting certification, which can lead to internship opportunities with various employers in California.

Corpsmember Career Pathways: The CCC dedicates resources to help Corpsmembers transition out of the program to meaningful career pathways, including but not limited to: higher education, trade schools, apprenticeships, careers with local/state/federal agencies, etc., to apply their skillsets and build financial independence.

INFRASTRUCTURE OVERVIEW

The California Conservation Corps (CCC) operates 27 facilities statewide, including 10 residential and 17 non-residential facilities in both urban and rural areas. These facilities enable the CCC to achieve its mission of providing employment, training, and educational opportunities to young adults. The facilities also allow the CCC to assist federal, state and local agencies, as well as nonprofit entities, with the conservation of California's natural resources.

The CCC residential facilities house 80 to 100 corpsmembers each and operate 24 hours a day, bringing young people together from across the state, and increasing capacity for emergency response and conservation projects. Non-residential centers range in size from 30 to 60 corpsmembers and are located in both urban and rural communities throughout California.

PROGRAM DESCRIPTIONS

2370 - REGULATION OF ENERGY INFRASTRUCTURE SAFETY

Established pursuant to Chapter 81, Statutes of 2019 (AB 111), the Department:

- Evaluates electrical corporation wildfire mitigation plans and annual updates, assesses electrical corporation compliance with approved plans, and makes enforcement recommendations to the California Public Utilities Commission.
- Issues safety certifications to electrical corporations demonstrating proactive investments in wildfire safety, including agreeing to implement findings from safety culture assessments, having executive compensation structures tied to wildfire performance metrics, and reporting progress in implementing wildfire mitigation plans.
- Supports the Wildfire Safety Advisory Board, which provides recommendations and advice to the Department on wildfire safety, mitigation performance metrics, and wildfire mitigation plan requirements in addition to reviewing and providing advisory opinions on publicly-owned electrical utility wildfire mitigation plans.
- On behalf of the Underground Safety Board, coordinates the state's safe excavation outreach and education efforts, develops safe excavation standards, investigates accidents, and works with partner state agencies to enforce the "Call Before You Dig" law.
- Evaluates large electrical corporations' 10-year distribution undergrounding plans and assesses large electrical corporation compliance with those plans.

3360 Energy Resources Conservation and Development Commission

The Energy Resources Conservation and Development Commission (Energy Commission) is responsible for ensuring a reliable supply of energy to meet state needs while protecting public health, safety, and the environment. Activities include the following: making public policy recommendations regarding energy; collecting targeted energy data and ensuring data is managed responsibly; developing and implementing research, development, demonstration, and deployment policies and programs that promote strategic energy investments; ensuring energy facilities approved by the Energy Commission are designed, constructed, operated, amended, and decommissioned in a manner that protects the environment and public health and safety, and in compliance with all applicable laws, ordinances, regulations, and standards; adopting building efficiency standards, and adopting and enforcing appliance efficiency standards; promoting development, deployment, and integration of zero-emission and near zero-emission transportation infrastructure and technology; and supporting climate change goals through integrated resource planning, renewable energy development, and system integration.

† Savings resulting from SEC. 4.05 and/or SEC. 4.12 of the 2024 Budget Act are currently being recorded as an unallocated statewide set-aside. As a result, this department's budgetary displays may reflect overstated expenditures and may also potentially reflect negative fund balances in particular programs and funds. Fiscal year 2023-24 budget display reflects the best available information for use in decision-making for this department and/or these fund(s). Additional review and reconciliation of 2023-24 ending fund balances will occur in the spring to evaluate if a budget adjustment is required.

PROGRAM DESCRIPTIONS**2380 - REGULATORY and PLANNING PROGRAM**

The Regulatory and Planning program facilitates markets in providing adequate statewide energy supplies. The program certifies power plant sites, develops and implements landscape-scale plans to identify suitable areas for renewable energy resources and infrastructure development, designates transmission line corridors, and monitors new energy facilities and fuel infrastructure for compliance and supply and distribution adequacy, consistent with state energy policies. The program develops state energy policy based on the economic, security, safety, and environmental land-use and climate implications of energy supply and demand. The Energy Assessments program develops long-range projections for future energy supplies and demand, maintains current information on statewide electrical generation sources, consumption and peak demand, natural gas, transportation fuels, and distributed generation. The program develops state energy policy based on the economic, financial, security, safety, and environmental implications of supply, demand, and price/cost assessments, and monitors energy markets for competitive prices and potential market abuses.

2380010 - Power Plant Site Certification and Transmission Line Corridor Designation Program

The Power Plant Site Certification and Transmission Line Corridor Designation programs are responsible for the following: reviewing thermal power plant siting applications 50 megawatts and larger; ensuring power plant owners, operators, and developers comply with their specific conditions of certification and all applicable laws and regulations when constructing, operating, and closing power plants, and investigating potential violations; reviewing project change petitions to amend filed applications; reviewing applications for transmission line corridor designation; developing environmental and land use information and evaluating constraints and opportunities for renewable energy infrastructure development; and analyzing safety, reliability, efficiency, resilience, and environmental performance issues related to power plants and the state electricity transmission grid.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

3360 Energy Resources Conservation and Development Commission - Continued

2380019 - Electricity Analysis

The Electricity Analysis program is responsible for evaluating current and future electricity supply market trends and infrastructure needs; estimating costs and emissions of various generation types; assessing the adequacy of electricity supplies; and analyzing regulations and environmental issues related to electricity. Additionally, this program addresses the distribution system and its relationship to distributed generation, including planning and interconnection barriers and provides information and recommendations to state agencies, electricity market participants, and the public. The natural gas program component is responsible for evaluating current and future natural gas market trends and infrastructure needs, assessing the adequacy of natural gas supplies, monitoring the interaction of natural gas and electricity to maintain system reliability, analyzing regulations and environmental issues related to natural gas, and leading interagency work groups to monitor short-term natural gas market trends. The program also collects, monitors, and analyzes data on transportation fuel supply and production, fuel infrastructure issues, and responds to energy and fuel shortages and emergencies.

2385 - ENERGY RESOURCES CONSERVATION PROGRAM

The Energy Resources Conservation program objectives include reducing overall energy use and decreasing peak electricity demand by identifying energy efficiency opportunities and developing and implementing programs and standards for efficiently using energy in all sectors.

2385010 - Building and Appliances Program

The Building and Appliances program objectives include reducing consumer and business energy use, water use, and peak demand by developing and implementing strategies and minimum efficiency and flexible demand standards for appliances, equipment, and new and existing residential and nonresidential buildings. The Building and Appliances program provides technical assistance on building standards and enforcement support to the building industry and building departments. Further, the program maintains a database of efficient appliances and equipment and enforces compliance with the appliance efficiency standards.

2385019 - Energy Projects Evaluation and Assistance Program

This program is responsible for providing technical assistance, grants, and loans to improve energy efficiency and reduce operating costs of schools, colleges, local jurisdictions, hospitals, and public care facilities.

2385028 - Demand Analysis

The Demand Analysis program is responsible for collecting and analyzing electricity and natural gas consumption data used to prepare energy demand forecasts, forecasting peak and total energy consumption by sector, and estimating the amount of energy conserved by existing and proposed program activities. The program conducts detailed electricity and natural gas end-use surveys which serve as a primary data source for energy demand forecasts, conservation potential studies, and market and policy impact assessments. The program also performs transportation energy demand forecasting, conducts consumer vehicle choice surveys, and assesses the impacts of transportation electrification on California electricity use.

2390 - DEVELOPMENT PROGRAM

The Development Program focuses on transportation and alternatives to conventional fossil fuels. The mission is to support provision of adequate and reliable transportation energy to the California transportation sector while balancing economic, public health, safety, and environmental consequences. The program also conducts research, development, demonstration, commercialization, and deployment activities on energy efficiency, renewable and advanced energy technologies, and alternative and renewable fuel and advanced vehicle technologies so that future energy supplies are: cost effective, secure, and reliable; enhance environmental quality; and promote state and local economic development. The program provides technical assistance, financial assistance, direct technology research and demonstration, technology forecasting, technology analysis and evaluation, and knowledge sharing.

2390010 - Transportation Technology and Fuels

The Clean Transportation Program provides financial incentives to develop and deploy innovative technologies, infrastructure, and strategies that transform California's fuel and vehicle types to help attain the state's climate change and public health policies. The program goal is the development, deployment and integration of zero and near-zero emission fuels and advanced vehicle technologies and infrastructure. The program provides analyses and recommendations to guide state energy policy and legislation to achieve climate change and air quality objectives, reduce petroleum consumption, and promote economic development. The program also provides incentives to workforce development, training, and manufacturing that supports the program goals.

2390019 - Research and Development

The Research and Development program spurs innovation in energy efficiency, energy generation, storage, infrastructure resiliency, renewable integration, and transportation to meet the state's clean energy and climate goals. The programs bring science and technology breakthroughs from the lab to the market to benefit all Californians, with a focus on ensuring the

3360 Energy Resources Conservation and Development Commission - Continued

benefits also accrue to under-resourced communities. The programs catalyze a world-class innovation ecosystem that provides the resources, expertise, and information to foster and support successful clean energy entrepreneurship across the state. The programs equip communities, businesses, and public agencies with breakthrough technology solutions and tools to build a safe, resilient, affordable and clean energy system. The programs are administered through strategic performance-based competitive solicitations.

2390028 - Renewable Energy

The Renewable Energy program fosters growth of the renewable energy market by providing financial incentives to support the development and use of eligible renewable energy products; requiring utilities to disclose information to consumers on their power fuel mix; implementing the Renewables Portfolio Standard; and establishing solar equipment rating standards and maintaining solar equipment lists meeting the performance and safety standards.

2395 - LOAN REPAYMENT PROGRAM

The Loan Repayment program consists of Conservation and Development program loan repayments deposited into the following accounts: State Energy Conservation Assistance Account; Energy Technologies Research, Development and Demonstration Account; and Local Government Geothermal Resources Revolving Subaccount.

† Savings resulting from SEC. 4.05 and/or SEC. 4.12 of the 2024 Budget Act are currently being recorded as an unallocated statewide set-aside. As a result, this department's budgetary displays may reflect overstated expenditures and may also potentially reflect negative fund balances in particular programs and funds. Fiscal year 2023-24 budget display reflects the best available information for use in decision-making for this department and/or these fund(s). Additional review and reconciliation of 2023-24 ending fund balances will occur in the spring to evaluate if a budget adjustment is required.

† Savings resulting from SEC. 4.05 and/or SEC. 4.12 of the 2024 Budget Act are currently being recorded as an unallocated statewide set-aside. As a result, this department's budgetary displays may reflect overstated expenditures and may also potentially reflect negative fund balances in particular programs and funds. Fiscal year 2023-24 budget display reflects the best available information for use in decision-making for this department and/or these fund(s). Additional review and reconciliation of 2023-24 ending fund balances will occur in the spring to evaluate if a budget adjustment is required.

3460 Colorado River Board of California

The Colorado River Board protects California's rights and interests in the water and power resources of the Colorado River system. The Board works with: other Colorado River Basin states (Arizona, Colorado, Nevada, New Mexico, Utah, and Wyoming), federal agencies, other state agencies, six local agencies (Palo Verde Irrigation District, Imperial Irrigation District, Coachella Valley Water District, Metropolitan Water District of Southern California, San Diego County Water Authority, Los Angeles Department of Water and Power), Congress, the courts, and Mexico. Its activities include analyses of engineering, legal and economic matters concerning the Colorado River resources of the seven basin states and the 1944 United States-Mexico Water Treaty obligation to deliver Colorado River water to Mexico.

PROGRAM DESCRIPTIONS**2420 - GEOLOGIC HAZARDS AND MINERAL RESOURCES CONSERVATION**

This program evaluates, assesses and maps the state's geologic and seismologic hazards, such as earthquakes, landslides, tsunami and volcanic eruption threats, and hazardous minerals exposures, in order to protect the public health and safety and the natural environment; analyzes the state's mineral assets; and maps its mineral resources. Information is used by federal, state, and local government agencies, industries and individual businesses, and the public to make informed decisions about land use, seismic safety, and mineral development.

2425 - GEOLOGIC ENERGY MANAGEMENT DIVISION

This program regulates the drilling, operation, and abandonment of oil, natural gas, and geothermal wells to prevent, as much as possible, damage to life, health, property, and natural resources. The program seeks to protect public health and safety and environmental quality, including reduction and mitigation of greenhouse gas emissions associated with the development of hydrocarbon and geothermal resources in a manner that meets the energy needs of the state. The state is fully reimbursed for program expenditures by annual assessments and fees on the respective industries.

2430 - LAND RESOURCE PROTECTION

This program protects agricultural farmland and open space through various financial incentives. The Williamson Act program provides advice on and reviews documents related to changes to Williamson Act contracts between landowners and local governments. The California Farmland Conservancy Program provides grants to local governments and nonprofit land trusts for planning purposes and for the acquisition of agricultural conservation easements that permanently remove development rights, and therefore development pressure, from agricultural lands. The Farmland Mapping and Monitoring Program develops maps, statistics, and reports relating to farmland conversion, farmland inventory, and land protection to assist in local land use decisions.

2435 - MINE RECLAMATION

This program regulates surface mining operations and monitors local lead agencies to ensure compliance with the Surface Mining and Reclamation Act of 1975. It assists cities, counties, state agencies, and mine operators in their efforts to reclaim mined lands to beneficial uses. This program also compiles an inventory of the state's estimated 47,000 abandoned mines and remediates abandoned mine hazards to protect public safety.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

3480 Department of Conservation - Continued**2440 - STATE MINING AND GEOLOGY BOARD**

The Board serves as a regulatory and policy body for the state's geology, geologic and seismologic hazards, conservation of mineral resources, and reclamation of mined lands. The department's California Geological Survey and the Division of Mine Reclamation provide the Board with relevant engineering, technical expertise, and support functions for certain reports, plans, and maps. The Board also serves as an appeals body for mining operations that have been issued notice of violation orders to comply, or administrative penalties and in cases where the Division of Mine Reclamation contests the adequacy of a local government's approval of a mine operation's financial assurance cost estimate.

3540 Department of Forestry and Fire Protection

The Department of Forestry and Fire Protection (CAL FIRE) provides all hazard—fire, medical, rescue, and disaster—emergency response to the public and provides leadership in the protection of life, property, and natural resources in California.

CAL FIRE safeguards the public through: engineering, research, development and adoption of regulations, fire and life safety programs, fire prevention, law enforcement, public information and education, resource protection, and emergency response.

CAL FIRE limits the damage caused by fires, disasters, environmental degradation, and related emergencies by employing diverse yet complementary efforts, including: training for California's fire service professionals, public education and prevention awareness, responsible stewardship of our natural resources, and natural resource and emergency management.

CAL FIRE cultivates mutually beneficial and cost-effective relationships with all levels of government and the private sector to enhance the efficiency and effectiveness of public safety programs and mitigate emergencies in the urban, rural, and wildland areas of California.

Because CAL FIRE's programs drive a need for infrastructure investments, CAL FIRE has a capital outlay program to support this need. For the specifics on the CAL FIRE's capital outlay program see "Infrastructure Overview."

† Savings resulting from SEC. 4.05 and/or SEC. 4.12 of the 2024 Budget Act are currently being recorded as an unallocated statewide set-aside. As a result, this department's budgetary displays may reflect overstated expenditures and may also potentially reflect negative fund balances in particular programs and funds.

PROGRAM DESCRIPTIONS**2461 - STATE FIRE MARSHAL**

The Office of the State Fire Marshal (OSFM) protects life and property through the development and application of fire prevention, engineering, education, enforcement, and regulations.

2461010 - Office of the State Fire Marshal:

The Office of the State Fire Marshal is comprised of the following six divisions:

- **Code Development and Analysis:** The Code Development and Analysis division is responsible for the development and adoption of codes relating to fire and life safety used statewide by architects, engineers, design professionals, and the local fire and building authorities. This division fosters, promotes, and develops ways and means of protecting life and property against fire in many ways, including the adoption and implementation of regulations for statewide application. This division prepares the OSFM fire and life safety regulations and building standards for review and adoption into the California Code of Regulations, titles 19 and 24. The division assists local fire departments, fire districts, and building departments with the application of state laws and regulations. This division also reviews all of California's regulations relating to fire and life safety for relevancy, necessity, conflict, duplication, and overlap.
- **Fire and Life Safety:** The Fire and Life Safety division is responsible for applying laws and regulations related to fire prevention and life safety in state-owned and state-occupied facilities. This is achieved through code compliance inspections of new and existing buildings and plan review and construction inspections. The OSFM is responsible for fire and life safety in over 45,000 state-owned and state-occupied facilities, which include: state prisons, conservation camps, courts, state mental hospitals, state developmental centers, California State University and University of California campuses, and California Agricultural Districts.
- **Fire Engineering and Investigations:** The Fire Engineering and Investigations division's primary functions include licensing, product approval, fire/explosion investigations, and illegal fireworks enforcement and disposal. The division is responsible for 10 statewide programs, which include the Building Materials Listing, Portable Fire Extinguishers, Flame Retardant Chemicals and Fabrics, Vapor Recovery, Automatic Fire Extinguishing Systems, Licensing Enforcement and Inspection, Lab Accreditation, Motion Picture and Entertainment, Arson and Bomb Investigation, and Fireworks Disposal. This division also oversees the Arson and Bomb Unit, which has the responsibility to dispose of seized illegal fireworks and conduct fire/explosion investigations and licensing enforcement.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

3540 Department of Forestry and Fire Protection - Continued

- **Pipeline Safety:** The Pipeline Safety division ensures the safe construction, operation, and maintenance of approximately 5,400 miles of intrastate hazardous liquid pipelines that transport crude oil, refined products (e.g., gasoline, diesel, jet fuel, etc.), and Highly Volatile Liquids through populated urban areas, ecologically sensitive areas, and other high consequence areas. Pipelines that fall under the Pipeline Safety division authority are pipelines that transport hazardous liquids between facilities, such as offshore platforms, production fields, refineries, storage terminals, and marine terminals. This division is additionally charged with implementing investigations for failures, explosions, and fires on intrastate pipelines, and assisting on investigations for interstate pipelines. The Certified Unified Program Agencies program is responsible for ensuring the implementation of the California Fire Code Hazardous Materials Management Plan/Hazardous Materials Inventory Statement (HMMP/HMIS) and the Aboveground Petroleum Storage Act program elements. The HMMP/HMIS program ties in closely with the Hazardous Release Response Plan and Inventory or Hazardous Materials Business Plan program. The Firefighter Equipment and Foam program is tasked to monitor the use of per- and polyfluoroalkyl substances (PFAS) throughout the state at designated facilities and issue waivers to refineries and terminals for fixed suppression systems meeting identified criteria.
- **State Fire Training:** The State Fire Training division administers the California Fire Service Training and Education System and the Fire Service Training and Education Program for federal, state, and local firefighters. The division oversees a California Fire Academy System for over 65 training academies that represent a partnership with the fire departments, community colleges, and the OSFM. State Fire Training administers a professional certification system for fire service personnel and receives program guidance from the State Board of Fire Services.
- **Wildfire Planning and Engineering:** The Wildfire Planning and Engineering division will be transitioning into the new Community Wildfire Preparedness and Mitigation Division established by the passage of Chapter 225, Statutes of 2021 (AB 9). The division is responsible for various community-level fire prevention and preparedness programs including defensible space, home hardening, fire planning, land use planning, utility fire mitigation, fire prevention grants, fire hazard mapping, incident data and statistics, and damage inspection.

2465 - FIRE PROTECTION

CAL FIRE provides fire protection to keep damages to life, property, and natural resources within social, political, and economic constraints. The objective is to attack fires quickly and aggressively in areas where CAL FIRE has assumed primary direct protection responsibility by virtue of law, contract, or agreement until the fire is under control. The level of initial attack and follow-up action is relative to values threatened and control difficulty with the goal to control all unwanted fires within the first burning period.

2465010 - Fire Prevention:

This program is responsible for implementation of the Strategic Fire Plan, fire engineering, law enforcement, fire suppression cost recovery, and fire prevention education. This program focuses on the most effective methods, materials, and procedures to mitigate hazard and to enforce pertinent laws that deter and mitigate fires. More specifically, efforts focus on what needs to be done before a wildland fire starts to reduce the costs of firefighting, property loss, injury to the public and fire fighters, and damage to the environment.

2465019 - Fire Control:

The objective of this program is to detect, respond to, and suppress wildland fires in or threatening the State Responsibility Area. The heart of the effort is an aggressive initial attack strategy. CAL FIRE's goal is to contain 95 percent of all wildfires to ten acres or less. This is achieved through detection, ground attack, air attack, and mutual aid using fire engines, fire crews, bulldozers, helicopters, and fixed wing aircraft.

2465028 - Cooperative Fire Protection:

CAL FIRE provides a full range of fire protection services to local, county, state, and federal agencies throughout California through the administration of over 100 cooperative fire protection service agreements. Additionally, there are six long standing agreements wherein counties provide wildland fire protection on behalf of the Department.

2465037 - Conservation Camps:

CAL FIRE, in cooperation with the Department of Corrections and Rehabilitation, Divisions of Adult Parole Operations and Division of Juvenile Justice, operates 30 conservation camps throughout the state with capacity to house 152 fire crews. CAL FIRE operates seven permanent Fire Centers, six seasonal Fire Centers, and one Parole Training Center with the California Conservation Corps throughout the state that house 28 fire crews. CAL FIRE also operates in conjunction with the California National Guard to staff seven Fire Centers with a total of 10 fire crews. Additionally, CAL FIRE is currently authorized to operate 16 CAL FIRE Firefighter Crews located at seven different Fire Centers. These crews are available to respond to all types of emergencies including wildfires, floods, search and rescue, and earthquakes. When not responding to emergencies, the crews engage in hazardous fuels reduction, conservation related work projects, and prescribed fire project work to protect the community and resources of California.

2465046 - Emergency Fire Suppression:

3540 Department of Forestry and Fire Protection - Continued

CAL FIRE incurs additional emergency fire suppression expenditures when budgeted initial attack forces are unable to cope with a wildland fire within the initial attack period. Portions of these costs may be reimbursed in the fiscal year the expense was incurred or in a future fiscal year via Fire Management Assistance Grants provided by the Federal Emergency Management Agency or through cost shares provided by other government entities. In addition, CAL FIRE may recover portions of this cost through civil cost recovery actions authorized by state statutes.

2470 - RESOURCE MANAGEMENT

California's state and private forest, range, watershed lands, and urban forests provide multiple human, climate, and environmental benefits. The objective of this program is to maintain and enhance those benefits and to minimize damage to these resources from natural catastrophes and human development. Objectives are met by regulation of timber harvesting, coordination of climate and forest restoration related activities for the forest sector, technical assistance to non-industrial landowners, operation of state demonstration forests, operation of forest nurseries, vegetation management projects, and administration of federal forestry assistance programs.

2470010 - Resources Protection and Improvement:

The objective of this program is to improve forest lands and urban forests. Activities include: (1) forest restoration through fuels reduction and fire reintroduction; (2) the detection, evaluation, and control of forest pests; (3) growing and selling tree seedlings for reforestation, carbon sequestration through reforestation, biomass utilization, and wood products development; (4) avoided future emissions through fuels and fire behavior modification; (5) soil erosion control; (6) maintenance of a native conifer seed bank; (7) advice and assistance to non-industrial forest landowners on management of forests and improved harvesting and conservation practices; (8) research on and demonstration of sustainable forestry in state forests; (9) implementation of the California Forest Improvement Act of 1978; (10) technical assistance and grants to foster the environmental, social, and economic benefits of urban forests consistent with the California Urban Forestry Act of 1978; and (11) purchase and monitoring of working forest conservation easements per the California Forest Legacy Act of 2008. In the area of vegetation management, assistance is provided to public and private landowners to achieve land use objectives by reducing damage from wildland fires, increasing wildlife habitat, increasing productivity of forest and rangelands, improving water yields and air quality, reducing carbon emissions from wildland fires, increasing firefighter safety, and maintaining desirable ecosystems.

CAL FIRE cooperates with federal, state and local agencies, local organizations, and private property owners to develop and achieve land use objectives. Activities include removal, rearrangement, conversion, or improvement of vegetation using various treatment measures such as prescribed fire and mechanical, manual, and biological methods. The Environmental Protection Program provides in-house expertise and oversight of the Department's compliance with the California Environmental Quality Act, the National Environmental Policy Act, and other environmental laws and regulations applicable to departmental actions. The Climate and Energy program represents the Department in Natural and Working Lands and Climate Change Scoping Plan planning.

2470019 - Forest Practice Regulations:

The objective of this program is to maximize sustained production of high-quality timber products while protecting soil, water, wildlife, recreation, and other values associated with forest land. Forest Practice activities include the review and permitting of commercial timber harvesting operations on nonfederal timberlands, enforcing state forest practice laws and regulations, and monitoring compliance and the effects of timber operations on forest productivity, water quality, watersheds, soils, botanical resources, wildlife, fisheries, greenhouse gases, and other environmentally sensitive resources. The program is also responsible for issuing licenses to timber operators (LTOs), providing LTO training and education, and assisting the Board of Equalization-Timber Tax Division in their administration of taxes on timber and timberland. Forest Practice program staff also assist the Board of Forestry and Fire Protection and facilitate and participate in monitoring the effectiveness of the Board's forest practice regulations.

2470028 - Forest Resource Inventory and Assessment:

The objective of this program is to perform a periodic assessment of California's forest and rangeland resources. Activities include maintaining and distributing mission-critical datasets for fire planning, providing emergency incident support, and meeting certain regulatory requirements. In addition, the program provides extensive technical and public information for statewide fire threat, fire hazard, watersheds, socio-economic conditions, environmental indicators, and urban forestry.

2470037 - Professional Foresters Registration Program:

The Office of Professional Foresters Registration is a statutorily authorized program within the Board of Forestry and Fire Protection. The program is responsible for the licensing and regulation of all persons who practice forestry on non-federal, state, and private lands in California pursuant to the Professional Foresters Law of 1972. The program also licenses "certified specialties" of forestry, with the single certified specialty currently being Certified Rangeland Managers.

2475 - BOARD OF FORESTRY AND FIRE PROTECTION

The Board of Forestry and Fire Protection is a Governor-appointed body within CAL FIRE. The Board is responsible for developing the general forest policy of the state, determining the guidance policies of CAL FIRE, and representing the state's interest in federal forests in California. Together, the Board and CAL FIRE work to carry out statutory mandates to protect and enhance the state's unique forest and wildland resources. The Board's statutory responsibilities are to:

3540 Department of Forestry and Fire Protection - Continued

- Establish and administer forest and rangeland policy for the State of California;
- Protect and represent the state's interest in all forestry and rangeland matters;
- Provide direction and guidance to the Director of CAL FIRE on fire protection and resource management;
- Deliver a comprehensive regulatory program for forestry and fire protection; and
- Conduct its duties to inform and respond to the people of California.

2480 - DEPARTMENT OF JUSTICE LEGAL SERVICES

The objective of the Department of Justice Legal Services program is to account for the cost of legal services provided by the Department of Justice to CAL FIRE.

9900100 - ADMINISTRATION

Departmental administration provides executive leadership, policy direction, and a variety of program support services necessary for the successful performance of CAL FIRE's mission. CAL FIRE headquarters provides leadership through the executive office and through central services in accounting, budgeting, business services, legal, human resources, information technology, program accountability, and program and systems analysis. CAL FIRE field units provide localized general support services throughout the state.

INFRASTRUCTURE OVERVIEW

The Department of Forestry and Fire Protection (CAL FIRE) operates more than 640 facilities statewide. These facilities include, but are not limited to, 240 fire stations, 13 air attack bases, 1 air tanker base, 11 helitack bases, 30 conservation camps, 45 fire centers, 112 telecommunications facilities, 16 administrative headquarters, 21 unit headquarters, 36 bridges, 14 state forests, 1 nursery, 1 statewide seedbank, 4 training centers, and over 100 other miscellaneous facilities supporting the Fire Protection, Resource Management, Office of the State Fire Marshal, and Fire and Resource Assessment Program. CAL FIRE facilities support fire protection and resource management efforts for more than 31 million acres of both state and privately-owned wildlands throughout California.

3560 State Lands Commission

The California State Lands Commission provides effective stewardship of the lands, waterways, and resources entrusted to its care through preservation, restoration, enhancement, responsible economic development, and the promotion of public access. Execution of the Commission's responsibilities since its inception in 1938 has resulted in the generation of billions of dollars in revenues, while protecting and enhancing the public's ability to enjoy these state lands and resources.

Consisting of the Lieutenant Governor, the State Controller, and the Governor's Director of Finance, the California State Lands Commission serves as a trustee for the people of the state, managing approximately 4 million acres of California's sovereign public trust lands and resources, received upon admission into the Union in 1850. It also manages other lands that the federal government conveyed to the state (commonly known as school lands) and oversees the management of public trust lands legislatively granted in trust to over 70 local jurisdictions. These trust grants encourage responsible development, environmental preservation and enhancement, and public access on the state's tidelands, consistent with the common law Public Trust Doctrine. The grants typically require grantees to reinvest revenues generated from the granted lands back into the trust to the benefit of all Californians.

Public trust, or sovereign lands, include the beds of natural and navigable waterways, including non-tidal rivers, streams and lakes, and tide and submerged lands within tidal rivers, sloughs, bays, and the Pacific Ocean extending from the ordinary high water mark seaward to the three-mile offshore limit. In addition to sovereign lands, the Commission manages school lands, which were granted to California by the federal government in 1853 for the purpose of supporting public education in California. School lands typically include the 16th and 36th sections of each township and lands known to be mineral in character. Of the five and one-half million acres of school lands originally granted to the state, only about 458,843 acres remain in state ownership, and these are mostly concentrated in the California desert. The Commission also retains a reserved mineral interest in approximately 790,000 acres of sold school lands.

Because the State Lands Commission's (SLC) programs drive a need for infrastructure investment, SLC has a capital outlay program to support this need. For the specifics on the SLC's capital outlay program see "Infrastructure Overview."

PROGRAM DESCRIPTIONS**2560 - MINERAL RESOURCES MANAGEMENT DIVISION**

The Mineral Resources Management Division oversees the efficient and safe development of mineral resources on state lands. The state also has a beneficial interest in the Long Beach tidelands oil fields, and as such, the Commission participates in the safety and fiscal oversight of these fields. The program objectives are to: manage the responsible extraction of oil, gas, geothermal resources and other solid minerals; collect royalty and other revenues generated therefrom; and ensure that public safety and environmental protection are maintained at the highest possible standards in the development of these resources through engineering review and safety audits. The Commission also implements various programs for the prevention of oil spills and the safe operation of offshore facilities and conducts program and financial audits to ensure that the state receives fair value for the development of its resources. The Commission also manages the safe and effective decommissioning of the oil and gas facilities under its jurisdiction.

Further, the Commission manages the mineral resources associated with school lands under its purview, including revenue-generating extraction and prospecting leases and other projects. The Commission also coordinates with other agencies to administer the statewide Abandoned Mines Program.

2565 - LAND MANAGEMENT DIVISION

The Land Management Division manages approximately 4 million acres of tide and submerged lands and the beds of natural and navigable rivers, streams, lakes, bays, estuaries, inlets, and straits. These lands, often referred to as sovereign or Public Trust lands, stretch from the Klamath River and Goose Lake in the north to the Tijuana Estuary in the south, and from Lake Tahoe and the Colorado River in the east, to three miles offshore from the Pacific Coast in the west, and include California's two longest rivers, the Sacramento and San Joaquin.

The Commission also monitors sovereign land granted in trust by the California Legislature to approximately 70 local jurisdictions that generally consist of prime waterfront lands and coastal waters, including the state's five major ports. The Commission protects and enhances these lands and natural resources by issuing leases for use or development, preserving and expanding public access, and resolving boundaries between public and private lands.

Finally, the Commission manages the state's school lands, which seeks to develop and consolidate the state's school-land holdings to the economic benefit of the California State Teachers' Retirement System.

2570 - MARINE ENVIRONMENTAL PROTECTION DIVISION

The Marine Environmental Protection Division regulates marine oil terminals within California, providing the best achievable protection of the public health and safety and the environment. The Division monitors the transfer of oil at marine terminals, inspects all marine facilities, and reviews and approves all marine oil terminal operations manuals and training and certification programs. The Division also administers Chapter 31F of the California Building Code to ensure that marine oil terminals are fit for their purpose, and implements the state's Marine Invasive Species Program to prevent the introduction of nonindigenous species into California waters through the operations of oceangoing vessels. The program funds and conducts scientific research, develops rules and regulations to implement the Marine Invasive Species Act, and physically inspects oceangoing vessels to assess compliance with vessel-reported nonindigenous species management actions.

INFRASTRUCTURE OVERVIEW

The California State Lands Commission operates five facilities statewide. Two are regional headquarters, each co-located with a field office, one located in Sacramento and the other in Long Beach. The three remaining facilities are field offices only, one in Northern California and two in Southern California. Of the five facilities, one is state-owned (Huntington Beach Field Office), and the other four are in leased space.

3600 Department of Fish and Wildlife

The mission of the Department of Fish and Wildlife is to manage California's diverse fish, wildlife, and plant resources, and the habitats upon which they depend, for their ecological value and for their use and enjoyment by the public.

This includes habitat protection and maintenance in a sufficient amount and quality to protect the survival of species and natural communities. The Department is also responsible for the diversified use of fish and wildlife including recreational, commercial, scientific, and educational uses.

Because the Department of Fish and Wildlife programs drive a need for infrastructure investment, the Department has a capital outlay program to support this need. For the specifics on the Department's capital outlay program see "Infrastructure Overview."

[†] Savings resulting from SEC. 4.05 and/or SEC. 4.12 of the 2024 Budget Act are currently being recorded as an unallocated statewide set-aside. As a result, this department's budgetary displays may reflect overstated expenditures and may also potentially reflect negative fund balances in particular programs and funds.

PROGRAM DESCRIPTIONS**2590 - BIODIVERSITY CONSERVATION PROGRAM**

This program encourages the preservation, conservation, maintenance, and restoration of wildlife resources, including the Ecosystem Restoration Program, under the jurisdiction and influence of the state. Activities involve the conservation, protection and management of fish, wildlife, native plants, and habitat to ensure maintenance of biologically sustainable populations of those species.

2595 - HUNTING, FISHING, AND PUBLIC USE PROGRAM

This program facilitates diverse and sustainable hunting, fishing (recreational and commercial), trapping, and other public uses and associated economic benefits to the state by conserving and managing game species. Activities include collection and assessment of information on the distribution and abundance of game fish and wildlife to determine appropriate regulations (bag limits, gear restrictions, etc.) and to monitor the effects of those regulations.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

3600 Department of Fish and Wildlife - Continued**2600 - MANAGEMENT OF DEPARTMENT LANDS AND FACILITIES PROGRAM**

This program manages Department-owned or leased lands and facilities, including hatcheries, wildlife areas, ecological reserves, fish and wildlife laboratories, and public access areas, to contribute to the conservation, protection, and management of fish and wildlife.

2605 - ENFORCEMENT

This program serves the public through law enforcement, public safety, and hunter education. Law enforcement promotes compliance with laws and regulations protecting fish and wildlife resources; and investigates habitat destruction, pollution incidents and illegal commercialization of wildlife. Wardens also serve the public through general law enforcement, mutual aid, and homeland security.

2610 - COMMUNICATIONS, EDUCATION, AND OUTREACH PROGRAM

This program provides resource conservation education and activities in the classroom and on public and private lands; community and stakeholder outreach; and information and data using a variety of methods including publications, presentations, web applications, and media relations.

2615 - SPILL PREVENTION AND RESPONSE PROGRAM

This program minimizes damage and environmental impacts to, restores, and rehabilitates California's fish and wildlife populations and their habitats from the harmful effects of oil and other deleterious material spills in marine waters and inland habitats.

2620 - FISH AND GAME COMMISSION

The California Fish and Game Commission ensures the long term sustainability of California's fish and wildlife resources by guiding the ongoing scientific evaluation and assessment of California's fish and wildlife resources; setting California's fish and wildlife resource management policies and ensuring these are implemented by the Department of Fish and Wildlife; establishing appropriate fish and wildlife resource management rules and regulations; and building active fish and wildlife resource management partnerships with individual landowners, the public and interest groups, and federal, state and local resource management agencies.

† Savings resulting from SEC. 4.05 and/or SEC. 4.12 of the 2024 Budget Act are currently being recorded as an unallocated statewide set-aside. As a result, this department's budgetary displays may reflect overstated expenditures and may also potentially reflect negative fund balances in particular programs and funds. Fiscal year 2023-24 budget display reflects the best available information for use in decision-making for this department and/or these fund(s). Additional review and reconciliation of 2023-24 ending fund balances will occur in the spring to evaluate if a budget adjustment is required.

† Savings resulting from SEC. 4.05 and/or SEC. 4.12 of the 2024 Budget Act are currently being recorded as an unallocated statewide set-aside. As a result, this department's budgetary displays may reflect overstated expenditures and may also potentially reflect negative fund balances in particular programs and funds. Fiscal year 2023-24 budget display reflects the best available information for use in decision-making for this department and/or these fund(s). Additional review and reconciliation of 2023-24 ending fund balances will occur in the spring to evaluate if a budget adjustment is required.

PROGRAM DESCRIPTIONS

2710 - WILDLIFE CONSERVATION BOARD

The Wildlife Conservation Board's three main functions are: (1) land acquisition; (2) habitat protection, restoration, and enhancement, including conservation of forests, deserts, wetlands, riparian habitat, oak woodlands and protection of rangeland, grazing land and grasslands to support biodiversity and climate change resilience; and (3) development of wildlife-oriented public access and recreational areas.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

3720 California Coastal Commission

The California Coastal Commission, comprised of 12 voting members appointed by the Governor, the Senate Rules Committee, and the Speaker of the Assembly, was created by voter initiative in 1972 and was made permanent by the California Coastal Act of 1976 (Coastal Act). The Coastal Act calls for the protection and enhancement of public access and recreation, marine resources, environmentally sensitive habitat areas, marine water quality, agriculture, and scenic resources; and makes provisions for coastal-dependent industrial and energy development. The Commission is also designated the principal state coastal management agency for the purpose of administering the federal Coastal Zone Management Act in California and has exclusive regulatory authority over federal activities such as permits, leases, federal development projects, and other federal actions that could affect coastal zone resources and that would not otherwise be subject to state control.

PROGRAM DESCRIPTIONS**2730 - COASTAL MANAGEMENT PROGRAM**

The objectives of the Coastal Management Program are to implement coastal resources conservation through planning and regulation. Activities include:

- Reviewing and approval of local coastal programs (LCPs), port master plans, university long-range development plans, and any amendments to such plans, for consistency with the Coastal Act.
- Reviewing coastal development permit applications for new development in areas without a certified LCP, areas of permanently retained jurisdiction (e.g., tidelands, submerged lands, and public trust lands) and limited categories of local coastal development permit actions that can be appealed to the Commission.
- Monitoring and enforcement of coastal development permits.
- Reviewing federal activities for consistency with the Coastal Act.
- Protecting and expanding opportunities for public coastal access and recreation.
- Implementing a coastal water quality protection program.
- Providing technical information and assistance to support effective coastal management.
- Implementing a coastal and ocean resource public education program.
- Addressing coastal energy issues including, but not limited to, offshore oil and gas development, offshore wind projects, electricity generating power plant expansion and development, and siting and development of liquefied natural gas facilities.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

3720 California Coastal Commission - Continued

- Providing administrative support including accounting, budgeting, business services, support services, information technology, and human resources services.

3760 State Coastal Conservancy

The State Coastal Conservancy develops and implements projects to protect, restore, and enhance natural, recreational, and economic resources along California's coast, coastal watersheds, the ocean, and within the San Francisco Bay Area. The Coastal Conservancy supports implementation of the San Francisco Bay Area Conservancy Program and the Santa Ana River Conservancy Program. Through technical assistance, direct funding, and grants to local agencies and nonprofit organizations, the Coastal Conservancy supports projects that:

- Protect and enhance the natural environment, agricultural lands, scenic lands, and urban waterfronts along the Coast, in coastal watersheds, and around San Francisco Bay.
- Increase public access to the coast and San Francisco Bay.
- Build trails and increase outdoor recreational opportunities.
- Enhance coastal wetlands and other important habitat areas.
- Prepare for and reduce the unavoidable impacts of climate change on the coastal region and San Francisco Bay Area.
- Support education projects and programs related to the preservation, enhancement, and enjoyment of coastal resources.
- Facilitate improvement of existing, and the development of, new, lower cost accommodations within one and one-half miles of the coast.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

PROGRAM DESCRIPTIONS**2790 - COASTAL CONSERVANCY PROGRAM**

The Coastal Conservancy seeks to achieve the following goals:

- Protect and enhance habitats, wetlands, scenic open space, working lands and urban waterfronts along the California coast and around San Francisco Bay.
- Increase public access to the coast and outdoor recreational opportunities by creating new parks, trails and recreational amenities.
- Prepare for and reduce the unavoidable impacts of climate change on the coastal region and San Francisco Bay Area.
- Support education projects and programs related to the preservation, enhancement, and enjoyment of coastal resources.
- Facilitate improvement of existing, and the development of new, lower cost accommodations within one and one-half miles of the coast.

2805 - STATE COASTAL CONSERVANCY LOCAL ASSISTANCE PROGRAM

The State Coastal Conservancy provides grants and technical assistance to local governments, nonprofits and other project partners for the acquisition of land and easements, the development of public facilities, implementation of coastal education programs, and the restoration of habitat. The State Coastal Conservancy helps to implement the State's federally approved Coastal Management Program and supports programs that increase public access to the coast. The Conservancy has

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

3760 State Coastal Conservancy - Continued

participated in the protection of more than 390,000 acres of coastal lands through acquisition of fee title and conservation easements. The Conservancy has helped restore more than 100,000 acres of habitat.

Through its projects, the Conservancy has established approximately 160 new coastal accessways and built more than 168 miles of new trails.

State Coastal Conservancy funds are primarily expended for purposes of local assistance but may also be expended for capital outlay purposes, see Program 2820.

2820 - STATE COASTAL CONSERVANCY CAPITAL OUTLAY PROGRAM

The State Coastal Conservancy provides grants and technical assistance to state agencies for the acquisition of land and easements, the development of public facilities, and the restoration of habitat. The State Coastal Conservancy helps to implement the State's federally approved Coastal Management Program. The Conservancy has participated in the protection of more than 390,000 acres of coastal lands through acquisition of fee title and conservation easements and the Conservancy has helped restore more than 100,000 acres of habitat.

3780 Native American Heritage Commission

The California Native American Heritage Commission is charged with the protection and preservation of Native American cultural resources, sacred sites on public land, and Native American burial sites within the state. The Commission facilitates consultation and communication amongst California tribal governments and stakeholders and local, state, and federal agencies as necessary under state law.

3790 Department of Parks and Recreation

The mission of the California Department of Parks and Recreation (Parks) is to provide for the health, inspiration, and education of the people of California by helping to preserve the state's extraordinary biological diversity, protecting its most valued natural, cultural and historical resources, and creating opportunities for high-quality outdoor recreation for current and future generations to enjoy. With increased urbanization, the establishment of park units and recreation areas accessible to the major population centers of the state has become particularly important. Specific activities include: stewardship of natural resources, historic, cultural and archeological sites, and artifacts and structures; provision of interpretive services for park visitors; construction and maintenance of campsites, trails, visitor centers, museums, and infrastructure such as roads and water systems; and creation of recreational opportunities such as hiking, bicycling, fishing, swimming, horseback riding, jogging, camping, picnicking, and off-highway vehicle recreation. In addition, the Division of Boating and Waterways funds, plans, and develops boating facilities on waterways throughout California and ensures safe boating for the public by providing financial aid and training to local law enforcement agencies.

Because Parks' programs drive a need for infrastructure investment, Parks has a capital outlay program to support this need. For the specifics on Parks' capital outlay program see "Infrastructure Overview."

3790 Department of Parks and Recreation - Continued

† Savings resulting from SEC. 4.05 and/or SEC. 4.12 of the 2024 Budget Act are currently being recorded as an unallocated statewide set-aside. As a result, this department's budgetary displays may reflect overstated expenditures and may also potentially reflect negative fund balances in particular programs and funds. Fiscal year 2023-24 budget display reflects the best available information for use in decision-making for this department and/or these fund(s). Additional review and reconciliation of 2023-24 ending fund balances will occur in the spring to evaluate if a budget adjustment is required.

3810 Santa Monica Mountains Conservancy

The Santa Monica Mountains Conservancy acquires, restores, and consolidates lands in the Santa Monica Mountains, Rim of the Valley Trail Corridor, Upper Los Angeles River Watershed, and watersheds of Santa Monica Bay for park, recreation, and conservation purposes. The Conservancy may:

- Lease, rent, sell, transfer, or exchange lands for park purposes.
- Award grants or interest free loans to state and local agencies to purchase or restore park, recreation, conservation, or buffer-zone areas to ensure that the character and intensity of development on these lands is generally compatible with and does not adversely impact the environment.
- Implement programs to improve access from the inner city areas surrounding the Conservancy, thereby providing recreational opportunities for all residents.
- Manage the Rim of the Valley Trail Corridor recreational trail.
- Plans for restoration, recreation, and conservation projects for the Los Angeles River and Upper Los Angeles River Watershed.

3815 Salton Sea Conservancy

3820 San Francisco Bay Conservation and Development Commission

The San Francisco Bay Conservation and Development Commission is a state planning and regulatory agency with regional authority. Its mission is to protect and enhance the San Francisco Bay, and to encourage the Bay's responsible and productive use. The Commission authored and maintains the San Francisco Bay Plan, and relies on the McAteer-Petris Act and other statutory and regulatory authorities to maximize public access to the Bay and minimize Bay fill. The Commission issues permits for filling, dredging, and development projects within the Bay, along the Bay shoreline, and within salt ponds and certain managed wetlands adjacent to the Bay. The Commission also implements the Suisun Marsh Preservation Act of 1977. By statute, the Commission develops and implements the federal Coastal Zone Management Act's program for the Bay and exercises authority over federal activities otherwise not subject to state control. The Commission leads the ongoing multi-agency regional effort to address the impacts of rising sea level and climate change on the Bay and along the shoreline.

3825 San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy

The San Gabriel and Lower Los Angeles Rivers and Mountains Conservancy was established in 1999 to acquire and manage public lands and to provide for the public's enjoyment and enhancement of recreational and educational experiences on public lands in the watersheds of San Gabriel River, Lower Los Angeles River, and the Dominguez Channel; and Santa Catalina Island in a manner consistent with the protection of lands and resources in those watersheds. Through these projects, the Conservancy provides for additional open space, water conservation and watershed improvement, and wildlife and habitat restoration and protection. The Conservancy also funds projects that support the promotion of healthier and more active communities, increase open space and park access to disadvantaged communities, economic and workforce growth, and building resiliency for those impacted by climate change or wildfire.

3830 San Joaquin River Conservancy

The mission of the San Joaquin River Conservancy is to acquire, preserve, manage, and promote access to lands within the flood plain on both sides of the San Joaquin River from Friant Dam to Highway 99.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

3830 San Joaquin River Conservancy - Continued

Specific activities are to:

- Implement the San Joaquin River Parkway Master Plan, a 22-mile regional greenspace and wildlife corridor along both sides of the river extending from Friant Dam to Highway 99, with an interconnected trail system and recreational and educational features.
- Operate and manage lands for public access, recreation, and enjoyment consistent with the protection of natural and cultural resources.
- Protect, enhance, and restore riparian and riverine habitat and ecological diversity.
- Provide for multi-benefit water quality, water supply, ecosystem and watershed protection and restoration.
- Facilitate the development of the parkway by assisting other entities in conserving and improving their lands within the parkway, and to garner public support to secure its future.
- Acquire land from willing sellers to facilitate the above activities with a target of 5,900 acres.

3835 Baldwin Hills and Urban Watersheds Conservancy

The Baldwin Hills Conservancy and Urban Watershed's mission is to acquire open space and manage public lands within the Baldwin Hills, Ballona Creek, and Upper Dominguez Channel watersheds and to provide recreation, restoration, and protection of wildlife habitat for the public's enjoyment and educational experience.

Specific agency responsibilities are to:

- Carry out projects and activities to further the purposes of the Baldwin Hills and Urban Watersheds Act of 2022.
- Study the potential environmental and recreational uses of the Baldwin Hills, southern Ballona Creek Watershed, and Upper

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

3835 Baldwin Hills and Urban Watersheds Conservancy - Continued

Dominguez Channel area.

- Develop and adopt a proposed watershed and open-space plan for improvements in the conservancy territory.
- Undertake site improvement projects, regulate public access, construct new facilities as needed for outdoor recreation, and provide for the appreciation and protection of natural resources.
- Prioritize and implement acquisition of additional recreational and open space land within the territory.
- Provide recreational, open space, wildlife habitat restoration and protection of lands for educational use within the area.
- Conduct the necessary planning activities for the area.
- Approve conservancy funded projects that advance the policies and priorities set forth by the enabling statute.
- Develop and coordinate a program of resource stewardship for optimum recreational and natural resource value based on the needs of the surrounding community.
- Provide for the public's enjoyment, and enhance recreational and educational experiences on public lands in a manner consistent with the protection of lands and resources in the area.

3840 Delta Protection Commission

The mission of the Delta Protection Commission is to protect, maintain, enhance, and enrich the overall quality of the Delta environment and economy, with a focus on agriculture, recreation, and natural resources, while remaining mindful of the importance of the Delta to all Californians. The Commission supports orderly, balanced conservation and development of Delta land resources and provides a forum for Delta residents to engage in decisions regarding actions to recognize and enhance the unique cultural, recreational, and agricultural resources of the Delta. The Commission identifies and makes recommendations on methods of preserving the Delta as an evolving place and promotes Delta legacy communities, regional economic sustainability, and emergency response preparedness.

3845 San Diego River Conservancy

The San Diego River Conservancy is dedicated to the conservation, protection, and enhancement of the San Diego region's most valuable resources. Strategic programs prioritize land acquisition, recreation, the preservation of natural and cultural resources, and support water quality improvements and natural flood conveyance. The Conservancy leverages grant funding to ensure these efforts benefit the public. The Conservancy also collaborates with partner organizations to complete the San Diego River Trail that stretches 52 miles from the headwaters in Julian to the Pacific Ocean. Additionally, the Conservancy assists the neighboring watersheds of the Otay, Sweetwater, and Tijuana Rivers, by supporting conservation projects that restore native habitats, address climate change, and strengthen forest and fire resilience throughout the San Diego region.

3850 Coachella Valley Mountains Conservancy

The mission of the Coachella Valley Mountains Conservancy is to acquire and hold as open space the mountainous lands surrounding the Coachella Valley and the natural lands within the Coachella Valley. In addition, the Conservancy works to protect wildlife and enhance recreational and educational experiences on those lands, to conserve local water resources and to promote sustainability and climate change adaptability within the desert and surrounding mountain areas.

3855 Sierra Nevada Conservancy

The Sierra Nevada Conservancy's mission is to initiate, encourage, and support efforts that improve the environmental, economic, and social well-being of the Sierra Nevada region, its communities, and the people of California. The Conservancy achieves its mission through the awarding of grants and loans, development of projects and programs, providing strategic direction and resources to the Sierra Nevada region, and assisting in collaborative efforts with a broad array of governmental and non-governmental partners.

PROGRAM DESCRIPTIONS

3220 - SIERRA NEVADA CONSERVANCY PROGRAM

Established pursuant to Chapter 726, Statutes of 2004, the Conservancy is authorized to:

- Provide increased opportunities for tourism and recreation.
- Protect, conserve, and restore the region's physical, cultural, archaeological, historical, and living resources.
- Aid in the preservation of working landscapes.
- Reduce the risk of natural disasters, such as wildfires.
- Protect and improve water and air quality.
- Assist the regional economy through the operation of the Conservancy's program.
- Undertake efforts to enhance public use and enjoyment of lands owned by the public.

In support of these programs, the Conservancy facilitates collaborative planning efforts with local and regional governments, community groups, and interested parties; provides technical assistance; and initiates and funds projects to identify and fill critical needs in the Sierra Nevada region.

3860 Department of Water Resources

The Department of Water Resources protects, conserves, develops, and manages California's water supply. The Department evaluates existing water resources, forecasts future water needs, and explores potential solutions to meet the state's growing needs for personal use, irrigation, industry, recreation, power generation, and fish and wildlife. The Department also works to prevent and minimize flood damage, oversee the safety of dams, and educate the public about the importance of water and its efficient use.

Because the Department's programs drive a need for infrastructure investment, the Department has a capital outlay program to support this need. For the specifics on the Department's capital outlay program see "Infrastructure Overview."

PROGRAM DESCRIPTIONS**3230 - CONTINUING FORMULATION OF THE CALIFORNIA WATER PLAN**

The California Water Plan is the state's strategic plan for the efficient use, management and development of the state's water resources. The Plan is updated every five years and provides a framework for water managers, legislators, and the public to consider options and make decisions regarding California's water future. The Plan evaluates current and future water conditions, challenges and opportunities. It presents basic data and information on California's water resources including water supply evaluations and assessments of existing and future agricultural, urban, and environmental water uses. The Plan identifies and evaluates multiple future scenarios and over 30 resource management strategies such as conservation, recycling, desalination, transfers, storage, conveyance, water quality, watershed management, ecosystem restoration, groundwater, and urban land use management to help meet future demands in light of uncertainties and unexpected catastrophic events. This program also identifies ways for the state to: (1) help local agencies and governments prepare integrated regional water management plans on a watershed basis and diversify their regional water portfolios to ensure sustainable water uses, reliable water supplies, better water quality, environmental stewardship, efficient urban development, protection of agriculture, and supporting a strong economy, (2) help cities, counties and local agencies prepare a Water Element for their General Plans, Urban Water Management Plans and Agricultural Water Management Plans, and (3) help local agencies and tribal governments improve water and land use planning coordination.

3240 - IMPLEMENTATION OF THE STATE WATER RESOURCES DEVELOPMENT SYSTEM

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.

3860 Department of Water Resources - Continued

The State Water Project is a water storage and delivery system that consists of 34 storage facilities (reservoirs and lakes), 21 pumping plants, 4 pumping-generating plants, 5 hydroelectric power plants, and over 700 miles of conveyance (canals, pipelines, and tunnels). The Project provides water to over 25 million Californians and 750,000 acres of irrigated farmland.

The Department plans, designs, constructs, operates, maintains, and manages State Water Project facilities that provide water to facilities located from Plumas County to Riverside County.

The Delta Conveyance Program is charged with improving the Delta ecosystem and ensuring water supply reliability in a safe, timely, and cost-effective manner. This includes implementation of the Delta Conveyance, project specific environmental commitments, and compliance with the Environmental Impact Report and Environmental Impact Statement and other state and federal regulations and permits.

3245 - PUBLIC SAFETY AND PREVENTION OF DAMAGE

This program supports the California Water Action Plan by protecting life and property from damage by floods, ensures proper construction and maintenance of jurisdictional dams and levees, and provides loans for levee construction. Activities include assessing the state and regional investment needs to reduce risk, preventive floodplain management to discourage unwise use of areas subject to flooding, protection of floodplains, issuance of flood warnings, operation of flood control facilities, coordination and supervision of flood fight activities, and annual levee and flood channel maintenance and inspection in cooperation with other local, state, and federal partner agencies. This program also buys land, easements, and rights-of-way for federal flood control projects and supervises the design and construction of new dams and periodic inspection and the reevaluation of all existing jurisdictional dams for proper operation and maintenance. Fiscal oversight and coordination activities associated with the Disaster Preparedness and Flood Prevention Bond Act of 2006 are administered under this program. The program also reviews federal dam projects in coordination with federal and other state agencies with regard to dam safety.

3250 - CENTRAL VALLEY FLOOD PROTECTION BOARD

The Central Valley Flood Protection Board has regulatory authority over the State Plan of Flood Control (SPFC) facilities, designated floodways, and regulated streams in the Central Valley. The Board regulates encroachments on the system by issuing permits and initiating enforcement action when necessary to maintain the integrity of the levees and floodways that protect the valley's people and property. The Board manages the state's portfolio of real property held by the Sacramento-San Joaquin Drainage District. The Board serves as the non-federal sponsor to the United States Army Corps of Engineers on large joint state-federal levee improvement projects and assists the more than 100 local maintaining agencies that operate and maintain the SPFC. The Board conducts regular public meetings, workshops and tours, providing a public forum for stakeholders.

3255 - SERVICES

This program provides technical support within the Department and expertise in the fields of water resources planning, development and management; watermaster services; scientific analyses performed by DWR's chemical laboratory; information technology; and mapping, surveying and engineering services for other agencies.

3260 - CALIFORNIA ENERGY BOND OFFICE

California Energy Bond Office is responsible for managing the Electrical Power Fund and the Department of Water Resources (DWR) Charge Fund. The Electric Power Fund was created in response to the 2001 California energy crisis; for a limited period of time, the Electrical Power Fund purchased electric power on behalf of the state's investor-owned utilities and issued \$11.3 billion in bonds. The final amount of the outstanding bonds were defeased in September 2020. Bond proceeds were used to repay amounts borrowed for power purchases during the 2001 energy crisis. The DWR Charge Fund was created in 2019 by Chapter 79, Statutes of 2019 (AB 1054) to collect remittances from charges on investor-owned utilities ratepayers pursuant to Water Code Section 80550.

† Savings resulting from SEC. 4.05 and/or SEC. 4.12 of the 2024 Budget Act are currently being recorded as an unallocated statewide set-aside. As a result, this department's budgetary displays may reflect overstated expenditures and may also potentially reflect negative fund balances in particular programs and funds. Fiscal year 2023-24 budget display reflects the best available information for use in decision-making for this department and/or these fund(s). Additional review and reconciliation of 2023-24 ending fund balances will occur in the spring to evaluate if a budget adjustment is required.

3860 Department of Water Resources - Continued**INFRASTRUCTURE OVERVIEW**

The Department of Water Resources has two major infrastructure programs: the State Water Project and the flood control system in the Central Valley. The State Water Project is a water storage and delivery system that consists of 34 storage facilities, reservoirs, and lakes, 21 pumping plants, 4 pumping-generating plants, 5 hydroelectric power plants, and over 700 miles of canals, pipelines, and tunnels. The Project provides water to 25 million Californians and 750,000 acres of irrigated farmland. The Project also provides recreational opportunities to approximately 6 million visitors annually at 15 separate reservoir-based facilities as well as public fishing access to much of the Aqueduct. Existing flood control infrastructure in the Central Valley consists of 1,595 miles of levees, 348,000 acres of channels and floodways, over 800,000 linear feet of bank protection, over 60 mitigation and environmental restoration sites, and 55 various flood control structures including dams, weirs, pumping plants, diversion structures, gate structures, and drop structures. In general, these facilities provide more flood protection in urbanized areas and less in agricultural areas.

3875 Sacramento-San Joaquin Delta Conservancy

The mission of the Sacramento-San Joaquin Delta Conservancy is to act as the primary state agency to implement ecosystem restoration in the Delta and support efforts that advance both environmental protection and the economic well-being of Delta residents in a complementary manner. The Conservancy's activities include protecting and enhancing habitat and habitat restoration; protecting and preserving Delta agriculture and working landscapes; providing increased opportunities for tourism and recreation; promoting Delta legacy communities and economic vitality in the Delta; increasing the resilience of the Delta to the effects of climate change and natural disasters such as floods and earthquakes; protecting and improving water quality; assisting the Delta regional economy; conducting activities to protect, conserve, and restore the region's physical, agricultural, cultural, historical, and living resources; assisting local entities in the implementation of their habitat conservation plans and natural community conservation plans; facilitating protection and safe harbor agreements under the federal Endangered Species Act of 1973 and the California Endangered Species Act for adjacent land owners and local public agencies; and promoting environmental education.

3885 Delta Stewardship Council

Established in 2009 by the Delta Reform Act, the mission of the Delta Stewardship Council, through a seven-member board, is to further the state's coequal goals of providing a more reliable water supply for California and protecting, restoring, and enhancing the Sacramento-San Joaquin Delta ecosystem. The goals are to be achieved in a manner that protects and enhances the unique cultural, recreational, natural resource, and agricultural values of the Delta. In 2013, the Council adopted a legally enforceable Delta Plan to further the coequal goals and guide state and local agency activities related to the Delta. Under state law, agencies are required to coordinate their actions pursuant to the Delta Plan with the Council and the other relevant agencies. The Council is informed by scientific input from the Delta Science Program and the Delta Independent Science Board. The mission of the Delta Science Program is to provide the best possible unbiased scientific information to inform water and environmental decisionmaking in the Delta.

TOTALS, EXPENDITURES	\$98	\$4,450	\$4,450
Total Expenditures, All Funds, (State Operations)	\$23,320	\$29,767	\$29,142

† Savings resulting from SEC. 4.05 and/or SEC. 4.12 of the 2024 Budget Act are currently being recorded as an unallocated statewide set-aside. As a result, this department's budgetary displays may reflect overstated expenditures and may also potentially reflect negative fund balances in particular programs and funds. Fiscal year 2023-24 budget display reflects the best available information for use in decision-making for this department and/or these fund(s). Additional review and reconciliation of 2023-24 ending fund balances will occur in the spring to evaluate if a budget adjustment is required.

* Dollars in thousands, except in Salary Range. Numbers may not add or match to other statements due to rounding of budget details.
